Re: **Intent to Participate in OEB Consultation:
Rate Design for Electricity Commercial and Industrial Customers
Board File No. EB-2015-0043**

Dear Ms. Walli:

I am writing to express AMPCO's interest in participating in the Board's above consultation. AMPCO is also seeking eligibility for costs.

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent a cross-section of Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO, and its member companies, are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board (OEB). AMPCO members include IESO market participants and transmission customers, as well as large use and general service distribution customers.

AMPCO is interested in issues related to the price, adequacy, reliability and quality of electricity service. Rate design is a key issue for AMPCO's members.

AMPCO's proposes that its consultants in the consultation, Ms. Shelley Grice and Mr. Wayne Clark, be eligible for an award of costs:
