Ontario Energy Board
2300 Yonge Street
27th Floor
Toronto, ON M4P 1E4

Attention: Kirsten Walli, Board Secretary

Dear Ms. Walli:

**Re: Ontario Sustainable Energy Association (“OSEA”)
Participation in Technical Conference on July 6-7, 2015
Board File No. EB 2015-0029 and EB 2015-0049**

OSEA will participate in the Technical Conference on July 6 - 7, 2015.

OSEA’s questions will focus on evidence about:

- ♦ the cost-benefit analysis of:
 - solar thermal
 - ground source heat pumps
- ♦ the status of Union Gas Limited’s efforts to incorporate the 2009 expanded mandate letters into DSM plans and programs
- ♦ the status of Enbridge Gas Distribution Inc.’s efforts to incorporate the 2009 expanded mandate letters into DSM plans and programs.

We anticipate that OSEA’s questions will take approximately 15 minutes.

Yours truly,

Joanna Vince
