**Application for Expansion of Corunna Facility**  
**within 1.6 km of the Dow Moore Storage Pool**

**PROCEDURAL ORDER NO. 3**  
**July 6, 2015**

On January 22, 2015 Pembina Infrastructure and Logistics LP (Pembina) applied to the Ministry of Natural Resources and Forestry (MNRF) pursuant to section 11(2) of the *Oil, Gas and Salt Resources Act* (OSGRA) for approval to expand the storage capacity of natural gas liquids salt caverns storage facility in St. Clair Township in the County of Lambton (Corunna Facility). The Corunna Facility is located within 1.6 km of Enbridge Gas Distribution Inc.'s Dow Moore Designated Storage Area. As required by section 11(2) of the OSGRA the MNRF referred this application to the Ontario Energy Board (OEB) for approval.

On June 12, 2015 Pembina, by way of a letter, asked the OEB to revise the procedural schedule to allow Pembina until July 27, 2015 to file additional evidence in support of its application. Specifically, Pembina stated that it has been diligently working towards obtaining a Risk Assessment that will fully address all of the components of s. 7.1 and 7.2 of CSA Z341. In this regard, Pembina has requested that Stantec Consulting Ltd. conduct modeling to assess the consequences and incremental risk associated with proposed additional hydrocarbon storage at the facility. Further, Pembina stated that it is in the process of obtaining a qualified opinion as to the current adequacy of the geomechanical assessment.

The OEB considers it necessary to make provision for the following matters related to this proceeding. The OEB may issue further procedural orders from time to time.

4. Pembina shall file with the OEB complete responses to the interrogatories and deliver a copy to the intervenors by **August 12, 2015**.
