ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF ENBRIDGE GAS DISTRIBUTION INC.

Enbridge Gas Distribution Inc. has applied for pre-approval of the cost consequences associated with a long-term natural gas transportation contract with NEXUS Gas Transmission.

Learn more. Have your say.

Enbridge Gas Distribution Inc. has applied to the Ontario Energy Board for pre-approval of the cost consequences associated with a 15-year gas transportation contract commencing on November 1, 2017. The total cost for NEXUS capacity over the term of the contract is approximately \$421.6 million (US). If its application is approved, Enbridge Gas Distribution Inc. says that the benefits will include:

- enhancing its gas supply plan through improved reliability, diversity, and flexibility
- supporting the development of new natural gas pipeline infrastructure
- allowing direct access to new sources of natural gas supply in the Appalachian Basin

Enbridge Gas Distribution Inc. says that its forecast cost of gas supply via the NEXUS pipeline is competitive with alternative pipeline projects or existing pipeline infrastructure that accesses the Dawn Hub.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider the application filed by Enbridge Gas. We will question Enbridge Gas on the case. We will also hear arguments from individuals and from groups that represent the customers of Enbridge Gas. Enbridge Gas Distribution Inc. a déposé une requête pour la préapprobation des conséquences financières associées à un contrat à long terme de transport de gaz naturel avec NEXUS Gas Transmission.

Soyez mieux renseigné. Donnez votre opinion.

Enbridge Gas Distribution Inc. a déposé une requête auprès de la Commission de l'énergie de l'Ontario pour la préapprobation des conséquences financières associées à un contrat de transport de gaz sur 15 ans qui débutera le 1^{er} novembre 2017. Le coût total de la capacité de NEXUS sur la durée du contrat est d'environ 421 600 000 \$ (US). Si sa requête est approuvée, Enbridge Gas Distribution Inc. affirme que les avantages seront les suivants :

- l'amélioration de son plan d'approvisionnement en gaz par l'amélioration de la fiabilité, de la diversité et de la flexibilité
- le soutien au développement de nouvelles infrastructures de gazoduc pour le gaz naturel
- la possibilité d'un accès direct à de nouvelles sources d'approvisionnement en gaz naturel dans le bassin des Appalaches

Enbridge Gas Distribution Inc. affirme que le coût qu'elle prévoit pour l'approvisionnement en gaz via le gazoduc de NEXUS est en concurrence avec les projets de gazoducs alternatifs ou les infrastructures de gazoduc existantes qui accèdent au carrefour de Dawn.

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O. 1998, c. 15, Sched. B, as amended;

AND IN THE MATTER OF an Application by Enbridge Gas
Distribution Inc. for an Order or Orders Pre-Approving the
Cost Consequences associated with a Long-Term Natural
Gas Transportation Contract.

APPLICATION

1. The Applicant, Enbridge Gas Distribution Inc. ("Enbridge" or the "Company"), is an Ontario corporation with its head office in the City of Toronto. It carries on the business of selling, distributing, transmitting and storing natural gas within Ontario.
2. In the EB-2008-0280 proceeding, the Ontario Energy Board (the "OEB" or the "Board") indicated that it would consider Applications for the pre-approval of the cost consequences of long-term natural gas supply and / or transportation contracts that support the development of new natural gas infrastructure. The Board issued Filing Guidelines for the Pre-Approval of Natural Gas Supply and / or Upstream Transportation Contracts (the "Guidelines") setting out the items to be included in any such Application.
3. Enbridge hereby applies to the Board, pursuant to the Guidelines and section 36 of the *Ontario Energy Board Act, 1998* as amended (the "Act"), for an Order or Orders pre-approving the cost consequences associated with a long-term (15 year) gas transportation contract for service on the NEXUS Gas Transmission ("NEXUS") pipeline, commencing November 1, 2017.

Filed: 2015-06-05

4. NEXUS is a proposed pipeline that will provide natural gas markets in Ohio, Michigan, Chicago, and the Dawn Hub in Ontario with a direct link to the vast natural gas resources located within the Appalachian Basin (Marcellus and Utica shale gas supply). NEXUS requires the construction of approximately 250 miles of new greenfield pipeline and associated facilities and includes the efficient use of existing and expanded transportation pipelines.
5. Enbridge has entered into a Precedent Agreement with the developers of the NEXUS pipeline to enter into a contract (the "NEXUS contract") to receive firm transportation service for a term of 15 years commencing on November 1, 2017.
6. Under the terms of the Precedent Agreement, Enbridge must receive OEB pre-approval of the cost consequences of the NEXUS contract by October 1, 2015. If that approval is not received, then Enbridge has the right to terminate the Precedent Agreement without penalty. If OEB pre-approval is received, and other conditions precedent are satisfied, then Enbridge plans to enter into a gas transportation contract with NEXUS that will reflect the terms of the Precedent Agreement.
7. The NEXUS contract will allow Enbridge to obtain a direct supply of gas from the Marcellus and Utica basins to the Dawn Hub. This will allow Enbridge to diversify its gas supply portfolio and increase its security of supply.
8. The NEXUS contract is for 110,000 Dth per day of firm transportation capacity starting in 2017, with an annual cost of around \$28 million (US) in transportation charges (a total cost of around \$420 million (US) over the 15 year term). The average landed gas supply cost of the NEXUS contract is competitive with costs for Enbridge's other transportation and supply contracts and other alternatives.

9. Enbridge's evidence addresses all of the items required by the Guidelines. Attached as Appendix A to this Application is a table in the form prescribed by the Guidelines setting out the location of each required item within Enbridge's evidence.
10. Enbridge therefore applies to the Board for such final and interim Orders as may be necessary to pre-approve the cost consequences associated with the NEXUS contract over its 15 year term. The Company further applies to the Board pursuant to the provisions of the Act and the Board's *Rules of Practice and Procedure* for such final and interim Orders and directions as may be necessary in relation to the Application and the proper conduct of this proceeding.
11. It is not clear to Enbridge that an oral hearing is required. The Company requests that the Board establish a process to determine the Application in writing (or through an oral hearing if necessary) that allows for a decision to be rendered on or before September 24, 2015.
12. The persons affected by this Application are the customers of Enbridge. It is impractical to set out the names and addresses of the customers because they are too numerous.
13. Enbridge requests that a copy of all documents filed with the Board by each party to this proceeding be served on the Applicant and the Applicant's counsel as follows:

Good Morning,

On June 5, 2015, Enbridge Gas Distribution Inc. ("Enbridge") filed an application with the Ontario Energy Board (the "Board") for pre-approval of the cost consequences associated with a long-term natural gas transportation contract with NEXUS Gas Transmission.

On July 2, 2015, the Board issued the Notice of Application ("Notice") and the Letter of Direction for the proceeding. The Board has directed Enbridge to serve a copy of the Notice and Enbridge's application and evidence on the Clerks for all municipalities in which Enbridge supplies gas.

Attached please find the Notice as issued by the Board along with Enbridge's application and evidence.

Interested parties can file for intervener status in this proceeding by July 27, 2015. The notice provides further details of how to file for intervener status with the Board.

The application and evidence is also available on Enbridge's website under the "Other Regulatory Proceedings" tab at www.enbridgegas.com/ratecase.

Please contact me if you have any questions regarding this proceeding and the Notice of Application issued by the Board.

Sincerely,

Bonnie Jean Adams

Regulatory Coordinator , Regulatory Affairs
