Dear Ms. Walli:

Re: EB-2015-0175 – Enbridge Gas Distribution Inc. – NEXUS Gas Transmission Natural Gas Transportation Contract Pre-Approval

I am a consultant to the Consumers Council of Canada (“Council”). I have been instructed by my client to intervene in the proceeding to consider the Application to the Ontario Energy Board (“OEB”) by Enbridge Gas Distribution Inc. (“EGD”) for pre-approval of the cost consequences of a 15-year gas transportation contract with NEXUS Gas Transmission. The Council is a public-interest entity which represents the interests of residential consumers in Ontario. The Board’s order in this proceeding will ultimately impact the rates that residential consumers pay for the delivery of natural gas.

On June 23, 2014, the Council filed with the Board, pursuant to Rule 22.03 of the Ontario Energy Board’s Rules of Practice and Procedure, a document describing the Council, its mandate and objectives, membership, the constituency represented, and the types of activities the Council carries out. In addition, we provided a list of the individuals authorized to represent the Council in Board proceedings.

The nature and scope of the Council’s intended participation in the proceeding will be the following:

1. To test the Applicant’s evidence and assess the costs and benefits of the contract; and
2. To consider whether the contract is in the best interests of Union’s residential ratepayers.

The Council intends to ask for an order of costs in this proceeding. The Council has participated in many EGD proceedings over a long period of time. In all of those proceedings the Council has been recognized as being eligible for an award of costs. In the absence of an award of costs the Council would be unable to participate in this proceeding.

Copies of all correspondence related to this proceeding and hard copies of the Applicant’s evidence should be sent to:
