**RE: EB-2014-0182 Union Gas Burlington Oakville Project
FRPO Request for Late Intervention**

I am writing on behalf of the Federation of Rental-housing Providers of Ontario ("FRPO"). We are writing in brief response to Union's letter submitted August 11, 2015 in the above subject matter.

Timing: FRPO has been made aware of matters arising inside and outside this formal proceeding and the interconnectedness of other parallel proceedings. As such, we filed for late intervention to ensure that our members interests, and in our view those of the Ontario ratepayers, were represented.

LPMA: The standing of FRPO with respect to that of LPMA was first challenged by Union in EB-2008-0106. The Board ruled on the matter at that time (see attached). Since that time, FRPO has collaborated with LPMA and other intervenors to the satisfaction of the Board.

Conditions: FRPO has acted responsibly abiding by the Rules of Practice and Procedure and we would accept any conditions the Board so chose.

Thank you for your consideration of our request of August 7th.

Respectfully Submitted on Behalf of FRPO,

Dwayne R. Quinn
Principal
DR QUINN & ASSOCIATES LTD.
