Dear Ms. Walli,

EB-2015-0176 - Hydro One Networks' Request for an Exemption for Billing Accuracy and Estimated Billing

On May 6, 2015, Hydro One Networks Inc. ("Hydro One") filed an application with the Ontario Energy Board ("the Board") for an exemption from the sections of the Distribution System Code requiring 98% billing accuracy and limiting the use of estimated billing, for customers with poorly communicating smart meters.

On June 19, 2015, the Board issued a Decision on the Request for an Oral Hearing and Procedural Order No. 1. The Board directed that the application proceed by way of written hearing and set dates for asking and responding to interrogatories. The Board also set dates for Board Staff and interested parties to submit formal evidence and for Hydro One to respond.

Although the Board did receive a number of letters of comment from customers, Hydro One did not receive specific written questions or formal submissions on the application. Hydro One believes that the Board has sufficient information to approve this application as submitted.

Sincerely,
