Dear Ms. Walli:

**Re: Enersource Hydro Mississauga Inc.
Application for Distribution Rates Effective January 1, 2016
Board File No. EB-2015-0065
Letter dated August 31, 2015 from the Ontario Energy Board**

Enersource Hydro Mississauga Inc. (Enersource) is in receipt of the Ontario Energy Board's (the Board's) letter dated August 31, 2015 (the Letter) in which the Board found that certain sections of the evidence supporting Enersource's above-captioned application (the Application) do not satisfy the Board's filing requirements. Specifically, the Board found that with respect to Incremental Capital Module (ICM) elements of the application not related to a true-up of two Connection and Cost Recovery Agreements (CCRA Capital), the information related to the remaining request for \$29.8M incremental capital (Other Capital) is considered incomplete.

Enersource respectfully requests the Board to continue its review and processing of the Price Cap Incentive Regulation Mechanism element of the Application, so as not to jeopardize the January 1, 2016 implementation of new distribution rates, which is a critical outcome of the Application.

Enersource further advises that information, including business cases, related to the request for Other Capital will be provided by the end of September. Enersource is confident that these details will address the Board's filing requirements noted in the Letter, and will provide the Board with the necessary evidence to be able to continue processing the ICM elements of the Application.
