Dear Ms. Walli:

Re: EB-2015-0200 - 2017 Dawn Parkway Project – Term Up Provision

At Exhibit A, Tab 6, pg. 19-21 of Union Gas Limited's ("Union") 2017 Dawn Parkway Project application (EB-2015-0200), Union proposed a five-year Term Up Provision for existing renewable transportation contracts on the Dawn Parkway System when facility expansions of the Dawn Parkway System are planned at a cost of \$20.0 million or greater.

The purpose of this letter is to inform the Ontario Energy Board ("Board") and Intervenors, in advance of providing interrogatories to Union on September 8, 2015, that Union is modifying its proposal to increase the threshold cost from \$20.0 million to \$50.0 million. Union is making this change in response to feedback from its shippers on the Dawn Parkway System. This change has no impact on any other part of the EB-2015-0200 application.

Union will file updated evidence reflecting the increased threshold in due course.

If you have any questions, please contact me at (519) 436-5473.

Yours truly,
