Dear Ms. Walli:

**Re: Union Gas Limited (Union)  
October 1, 2015 QRAM Application  
Board File No. EB-2015-0255**

I am writing on behalf of OEB staff in regard to the above noted QRAM matter.

OEB staff has the following questions:

1. Ref: Cover Page  
Tab 2 / Pages 1-2  
Working Papers / Schedule 4 / Page 1

The National Energy Board (NEB) approved final tolls for transportation services on the TransCanada Mainline and directed that the tolls be effective as of January 1, 2015. TransCanada implemented the final tolls on July 1, 2015. The NEB also approved upstream toll changes for Centra Transmission Holdings Inc. (CTHI) and Centra Pipelines Minnesota Inc. (CPMI).

- (i) Please provide the approved toll schedules which confirm the tolls listed in column "j" of Schedule 4 / Page 1 of the Working Papers. Where necessary, please provide the supporting calculations.
- (ii) Please advise whether the variance resulting from the difference between the final tolls and the interim-approved tolls is captured in a deferral account for disposition. If so, please provide the deferral account(s) in which the variance is

recorded and advise whether the variance amount is being disposed of as part of this QRAM application.
