ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B);

AND IN THE MATTER OF an Application by Natural Resource Gas Limited for an Order or Orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission and storage of gas effective October 1, 2015.

BEFORE: Allison Duff
Presiding Member

DRAFT RATE ORDER
(for rates effective October 1, 2015)

Natural Resource Gas Limited (NRG) file an application on August 22, 2014, requesting the continuation of its Price Cap Incentive Rate-Setting (IR) mechanism for two years, from October 1, 2014 to September 30, 2016, rather than filing a cost of service application. The Board approved NRG's request on March 19, 2015. This proceeding covers the second year of that two-year IR continuation term.

On July 9, 2015, NRG filed an application under section 36 of the *Ontario Energy Board Act, 1998*, seeking approval for changes to the rates that NRG charges for the distribution, transmission and storage of natural gas effective October 1, 2015.

In Procedural Order No. 1 dated August 13, 2015, the Board granted Union Gas Limited (Union) intervenor status in this proceeding and made provisions for written interrogatories and submissions by Board Staff, NRG and Union. Interrogatories were received from OEB Staff.

The Board issued its Decision and Order on September 10, 2015 (the Decision). In its Decision, the Board approved NRG's proposed rate changes effective October 1, 2015. The Board directed NRG to file a draft Rate Order attaching a proposed Tariff of Rates and Charges.

THE OEB ORDERS THAT:

1. The Tariff of Rates and Charges set out in Appendix "A" are approved effective October 1, 2015 for all natural gas consumed or estimated to have been consumed on and after such date.

Draft

2. The Tariff of Rates and Charges set out in Appendix “A” of this Rate Order supersedes all previous distribution rate schedules approved by the OEB for NRG and is final in this respect.
3. Pursuant to section 30 of the *Ontario Energy Board Act, 1998*, NRG shall pay the Board’s costs of this proceeding immediately upon receipt of the Board’s invoice.

DATED at Toronto this _____ day of _____, 2015

Rate

1. Bills will be rendered monthly and shall be the total of:

- a) A Monthly Customer Charge:

A Monthly Customer Charge of \$150.00 for firm or interruptible customers; or
A Monthly Customer Charge of \$175.00 for combined (firm and interruptible) customers.

- d) Gas Supply Charge and System Gas Refund Rate Rider (if applicable) Schedule A

- e) Overrun Gas Charges:

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

- d) Competition.

3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.1530 cents per m³ for firm gas and 5.4412 cents per m³ for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m³ and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

Bundled Direct Purchase Delivery
