Dear Ms Walli:

**Re: Enbridge Gas Distribution Inc. ("Enbridge")
EB-2015-0242 - QRAM Application
Response to CME**

On September 15, 2015 Enbridge Gas Distribution ("Enbridge") received a letter from Canadian Manufacturers & Exporters ("CME") asking both Enbridge and Union Gas Limited ("Union") to explain the difference between their respective Alberta reference prices and between Enbridge's Utility Price and Union's Ontario Landed Reference Price.

The letter from CME indicates a Union Alberta Reference Price of \$3.066/GJ whereas Enbridge's review of Union's October 2015 application indicated an Alberta Border Reference Price of \$3.039/GJ as per EB-2015-0255, Tab 1, Schedule 1, Line 5. This is comparable to Enbridge's forecast of \$3.0362/GJ at EB-2015-0242, Exhibit Q4-3 Tab 1, Schedule 4, page 1, Column 1. The small difference can be attributable to rounding.

The small difference between Enbridge's Utility Price of \$5.252/GJ and Union's Ontario Landed Reference Price of \$5.140/GJ can be attributable to applying the same forecast of future prices to the different gas supply portfolios of the Utilities.

Please do not hesitate to contact me with any questions.

Yours truly,
