Dear Ms. Walli:

Re: EB-2015-0179

I am a consultant to the Consumers Council of Canada ("Council"). I have been instructed by my client to intervene in the proceeding to consider the Application to the Ontario Energy Board ("OEB") by Union Gas Limited ("Union") for approval to expand natural gas service to certain rural and remote communities in Ontario, and for certain exemptions to meet revenue recovery requirements that apply to pipeline projects. The Council is a public-interest entity which represents the interests of residential consumers in Ontario. The Board's order in this proceeding will ultimately impact the rates that residential consumers pay for the delivery of natural gas.

On August 18, 2015, the Council filed with the Board, pursuant to Rule 22.03 of the Ontario Energy Board's Rules of Practice and Procedure, a document describing the Council, its mandate and objectives, membership, the constituency represented, and the types of activities the Council carries out. In addition, we provided a list of the individuals authorized to represent the Council in Board proceedings.

The nature and scope of the Council's intended participation in the proceeding will be the following:

1. To test the Applicant's evidence and its proposals and assess the impacts on all of Union Gas' residential customers;
2. To participate in the various stages of the proceeding which may include an interrogatory process, a technical conference, a settlement conference and an oral hearing.

The Council intends to ask for an order of costs in this proceeding. The Council has participated in many Union applications over a long period of time. In all of those proceedings the Council has been recognized as being eligible for an award of costs. In the absence of an award of costs the Council would be unable to participate in this proceeding.

Copies of all correspondence related to this proceeding and hard copies of the Applicant's evidence should be sent to:
