Date: September-17-15 1:06:53 PM

Greetings, this email is in response to Martha McQuat's questions regarding Hydro One Brampton's 2016 IRM application Rate Generator model requiring an immediate response to her email below. We have reproduced her questions below and provided an answer:

- Hydro One Brampton to review the entry in the 2012 Board-approved disposition column of Sheet 3 of the model and confirm any adjustment required.

Hydro One Brampton confirms that an adjustment is required for the "*Board-approved disposition during 2012*" column to transfer \$98,295 to the "*Transactions Debit/(Credit) during 2012 excluding interest and adjustments*" column. The value of \$97,294 reported in the "Disposition and Recovery/Refund of Regulatory Balances (2011)" row should be adjusted to (\$1,001).

-
- Hydro One Brampton to review the consumption data for the Distributed Generation class on Sheet 9 of the model and report to Board staff the adjustments required to ensure that these kWh are not double-counted.

Hydro One Brampton conducted a review as requested by Board Staff and reports that an adjustment is required on "Sheet 9. RTSR Current Rates" in the "Non-Loss Adjusted Metered kWh for the General Service Less Than 50kW Service Classification" column for both rows 19 and 20.

The kWh value reported for row "Retail Transmission Rate - Network Service Rate" was 331,606,198 kWh and this value should be adjusted to 331,492,483 kWh so the value reported for the Distributed Generation Service Classification of 113,715 kWh is not double-counted.

In addition the kWh value reported for row "Retail Transmission Rate - Line and Transformation Connection Service Rate" was 331,606,198 kWh and this value should be adjusted to 331,492,483 kWh as well, so the value reported for the Distributed Generation [gen] Service Classification of 113,715 kWh is not double-counted.

Regards,

Dan

Dear Dan,

Thank you for taking the time to discuss evidence clarifications and modifications to your IRM Rate Generator today. I have itemized the changes that we discussed below. An updated IRM Rate Generator model will be sent to you on or before **September 24, 2015**.

Upon receipt of the model, please review it to ensure that the changes have been implemented as we discussed. In the spaces provided below, please indicate your agreement with and confirmation of the changes and respond **by return email to the Board Secretary**, cc'ing me. In accordance with the case timelines, I ask that you respond by **October 1, 2015**.

Please feel free to include any questions or concerns in your response.

Regards,

Martha McOuat
Project Advisor

The following is a summary of our conversation of September 17, 2015, which requires your confirmation:

For immediate response:

- Hydro One Brampton to review the entry in the 2012 Board-approved disposition column of Sheet 3 of the model and confirm any adjustment required.
- Hydro One Brampton to review the consumption data for the Distributed Generation class on Sheet 9 of the model and report to Board staff the adjustments required to ensure that these kWh are not double-counted.

Please provide your responses by email to the Board Secretary as soon as possible.

For Response by October 1, 2015:

- Board Staff to update Sheet 3 of the model to reflect Board-approved dispositions in 2014 and 2015.

Hydro One Brampton response:

- Board staff to update Sheet 9 of the model to reflect billing determinants as reported by Hydro One Brampton

Hydro One Brampton response:

- Board staff to complete all changes above using the revised version of the rate generator model, including bill impacts. This model will be populated by Board staff using the data as shown in Hydro One Brampton's rate generator as filed.

Hydro One Brampton response:
