## INTRODUCTION AND SUMMARY

Hydro One Networks Inc. (Hydro One) has applied for an amendment to its Electricity Distribution Licence, ED-2003-0043. The amendment would exempt the utility from certain sections of the Distribution System Code (DSC) relating to estimated billing and billing accuracy. The amendment specifically pertains to approximately 170,000 of the utility's "hard to reach" customers. Hydro One requests that the Ontario Energy Board (OEB) make the exemption effective April 15, 2015 until December 31, 2019.

The OEB approves the application for the reasons set out below.

## THE PROCESS

This Decision and Order is being issued by Delegated Authority, following a written hearing, pursuant to Section 6 of the *Ontario Energy Board Act, 1998* (Act).

## THE APPLICATION

### Background

On April 15, 2015, in the proceeding EB-2014-0198, the OEB issued an amended DSC. The amendments included revisions to sections of the DSC relating to billing accuracy and estimated billing. Notice of the OEB's proposal to amend the DSC had previously been issued on February 5, 2015.

On May 6, 2015, Hydro One applied for an exemption from Section 2.10.1 and Sections 7.11.1 to 7.11.7 of the DSC. Among other things, these sections of the DSC require 98% billing accuracy and limit the use of estimated billing. A Notice of Application and Written Hearing was issued on May 29, 2015, establishing dates for the filing of interrogatories and submissions by interested parties and for responses by the applicant.

The OEB received a number of written requests from interested parties that it hold an oral hearing. On June 19, 2015 the OEB issued its Decision on Request for Oral Hearing and Procedural Order No. 1. The OEB found that a written hearing would be sufficient to obtain a complete record on the issues relevant to the application. The

OEB noted that the Notice of Application and Written Hearing allowed for concerned customers to ask questions of Hydro One in writing and that they would be able to make their concerns heard through written submissions. While not satisfied that there was good reason to hold an oral hearing, the OEB extended the time for parties to ask questions of the applicant and to set out their views on the application evidence in writing.

In one of the letters of comment, dated June 15, 2015, three interested parties jointly submitted their concerns over how the exemption would affect their bills and requested that the OEB deny the application as filed. Hydro One wrote to the OEB on August 14, 2015, noting that although the OEB received a number of letters of comment from customers, “Hydro One did not receive specific written questions or formal submissions on the application” and submitted that the OEB “has sufficient information to approve this application as submitted.”

### **Request for Exemption from certain sections of the DSC**

Hydro One has identified approximately 170,000 of its customers that are located in remote and sparsely populated areas with no existing commercial cellular network or a low level of communication reliability as “hard to reach”. Hydro One submits that, with respect to this group of customers, 98% of the time it cannot economically provide monthly bills that are based on actual reads and, as well, it cannot economically issue regular Time-of-Use (TOU) bills based on actual meter readings. Hydro One submits that the costs associated with doing so would be excessively high, resulting in upward pressure on rates, and that the option of providing this group of customers with monthly, manually-read bills would be expensive. Hydro One also states that the situation is not expected to be resolved until there is improved telecommunications infrastructure in the province or when future technological advancements in automated meter reading infrastructure become available.

With regard to non-seasonal hard to reach customers, Hydro One proposes that bills be issued on a monthly basis and that meters be manually read on a quarterly basis. To the extent that the Advanced Metering Infrastructure Network provides remote reads within the billing window, these reads will be used to issue bills based on an actual read instead of the planned estimate. With respect to seasonal hard to reach customers, the utility proposes that bills be issued on a quarterly basis and that meters be read on an annual basis.

Hydro One's requested exemption in this proceeding would apply to the same approximately 170,000 hard to reach customers for which the utility received an exemption (relating to the mandated TOU pricing date) in OEB proceeding EB-2014-0360. The extension granted in that proceeding is in effect until December 31, 2019.

## FINDINGS

I find that the exemption to the sections identified in the DSC with regard to estimated billing and billing accuracy for the identified customers should be granted, with certain conditions set out below. Hydro One will be exempted from the requirement to provide monthly bills based on actual reads 98% of the time for the approximately 170,000 of its identified hard to reach customers until December 31, 2019.

During the course of the proceeding, a group of interested parties filed a letter of comment calling for increased accountability and transparency when reconciling a customer's bill. The interested parties also requested that the OEB deny the application as presented and hold Hydro One accountable for a "workaround solution to the current problem." I have considered the comments from the interested parties, however given that this segment of customers has already been identified in a prior proceeding (EB-2014-0360) as having connectivity issues and technological constraints, I accept Hydro One's assertion that it is not possible to economically make all meters communicate reliably enough to issue regular monthly TOU bills based on actual meter readings. I accept Hydro One's submission that the costs associated with the options available to make the meters communicate reliably enough are excessively high and would result in upward pressure on rates.

Hydro One has proposed a solution for both non-seasonal residential and general service <50 kW as well as its seasonal customers. The proposals include monthly bills based on estimates with quarterly bills based on actual manual meter reads for non-seasonal customers and quarterly estimated bills and annual meter reads for seasonal customers. Hydro One also stated that to the extent that the network allows, remote reads will be used to issue bills based on an actual read instead of the planned estimate. I find the proposal to be reasonable given the circumstances.

I do share the concerns raised by some of the interested parties about the implications of a potential for error in estimated bills. These concerns are particularly important given the large number of customers that are affected by the proposed exemption. Indeed, if these customers constituted a separate electricity distributor, it would be the seventh largest distributor in the province.

The application is granted on the condition that Hydro One not use estimated bills as the basis for issuing disconnection notices or performing disconnections; that Hydro One refrain from using estimated bills as the trigger for installation of load limiters; and that any collections activity be based on actual reads during the five year exemption period. I note that these are similar conditions to those which Hydro One agreed to in its reply submission in the EB-2014-0360 proceeding.

Similar to the TOU pricing date extension granted in proceeding EB-2014-0360, I find that reporting to the OEB would be helpful in monitoring Hydro One's progress in transitioning the identified hard to reach customers to monthly billing based on actual reads and on significant technological improvements and updates on reliable cellular network expansion. I also find that additional details with regard to billing accuracy and estimated bill reporting would be helpful including:

- The number of hard to reach customers receiving estimated bills as a result of smart meter network communication issues;
- An assessment of the accuracy of estimated bills;
- How Hydro One has and will be improving its accuracy with respect to estimated bills and how it is mitigating future estimated bills to be as accurate as possible.

I encourage Hydro One to continue its efforts to identify cost-effective technological solutions during the exemption period.

#### **IT IS ORDERED THAT:**

1. Hydro One Networks Inc.'s Electricity Distribution Licence ED-2003-0043, specifically Schedule 3 List of Code Exemptions, is amended to include an exemption from Section 2.10.1 and Sections 7.11.1 to 7.11.7 of the Distribution System Code in respect of approximately 170,000 Regulated Price Plan customers who, as of December 1, 2014, are:
  - i. outside the smart meter telecommunications infrastructure reach of Hydro One Networks Inc.;
  - ii. currently on TOU pricing with consistently unreliable communication resulting in billing errors; and

- iii. new hard to reach customers who are expected to be connected to Hydro One Network Inc.'s service area during the requested exemption period.
2. This exemption shall be effective as of April 15, 2015 until December 31, 2019.
3. Hydro One Networks Inc. shall comply with the OEB's directions in this Decision and Order regarding disconnections, load limiters and collections; and, shall file a report to the OEB on its progress including the reporting requirements outlined above to transition the identified hard to reach customers to monthly billing based on actual reads 98% of the time on December 31, 2015, December 31, 2016, December 31, 2017 and December 31, 2018.

## 1 Definitions

In this Licence:

**“Accounting Procedures Handbook”** means the handbook, approved by the Board which specifies the accounting records, accounting principles and accounting separation standards to be followed by the Licensee;

**“Act”** means the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Schedule B;

**“Affiliate Relationships Code for Electricity Distributors and Transmitters”** means the code, approved by the Board which, among other things, establishes the standards and conditions for the interaction between electricity distributors or transmitters and their respective affiliated companies;

**“Conservation and Demand Management”** and **“CDM”** means distribution activities and programs to reduce electricity consumption and peak provincial electricity demand;

**“Conservation and Demand Management Code for Electricity Distributors”** means the code approved by the Board which, among other things, establishes the rules and obligations surrounding Board approved programs to help distributors meet their CDM Targets;

**“distribution services”** means services related to the distribution of electricity and the services the Board has required distributors to carry out, including the sales of electricity to consumers under section 29 of the Act, for which a charge or rate has been established in the Rate Order;

**“Distribution System Code”** means the code approved by the Board which, among other things, establishes the obligations of the distributor with respect to the services and terms of service to be offered to customers and retailers and provides minimum, technical operating standards of distribution systems;

**“Electricity Act”** means the *Electricity Act, 1998*, S.O. 1998, c. 15, Schedule A;

**“IESO”** means the Independent Electricity System Operator;

**“Licensee”** means Hydro One Networks Inc.

**“Market Rules”** means the rules made under section 32 of the Electricity Act;

**“Net Annual Peak Demand Energy Savings Target”** means the reduction in a distributor’s peak electricity demand persisting at the end of the four-year period (i.e. December 31, 2014) that coincides with the provincial peak electricity demand that is associated with the implementation of CDM Programs;

**“Net Cumulative Energy Savings Target”** means the total amount of reduction in electricity consumption associated with the implementation of CDM Programs between 2011-2014;

**“OPA”** means the Ontario Power Authority;

**“Performance Standards”** means the performance targets for the distribution and connection activities of the Licensee as established by the Board in accordance with section 83 of the Act;

**“Provincial Brand”** means any mark or logo that the Province has used or is using, created or to be created by or on behalf of the Province, and which will be identified to the Board by the Ministry as a provincial mark or logo for its conservation programs;

**“Rate Order”** means an Order or Orders of the Board establishing rates the Licensee is permitted to charge;

**“regulation”** means a regulation made under the Act or the Electricity Act;

**“Retail Settlement Code”** means the code approved by the Board which, among other things, establishes a distributor’s obligations and responsibilities associated with financial settlement among retailers and consumers and provides for tracking and facilitating consumer transfers among competitive retailers;

**“service area”** with respect to a distributor, means the area in which the distributor is authorized by its licence to distribute electricity;

**“Standard Supply Service Code”** means the code approved by the Board which, among other things, establishes the minimum conditions that a distributor must meet in carrying out its obligations to sell electricity under section 29 of the Electricity Act;

**“wholesaler”** means a person that purchases electricity or ancillary services in the IESO administered markets or directly from a generator or, a person who sells electricity or ancillary services through the IESO-administered markets or directly to another person other than a consumer.

## **2 Interpretation**

- 2.1 In this Licence, words and phrases shall have the meaning ascribed to them in the Act or the Electricity Act. Words or phrases importing the singular shall include the plural and vice versa. Headings are for convenience only and shall not affect the interpretation of the Licence. Any reference to a document or a provision of a document includes an amendment or supplement to, or a replacement of, that document or that provision of that document. In the computation of time under this Licence, where there is a reference to a number of days between two events, they shall be counted by excluding the day on which the first event happens and including the day on which the second event happens and where the time for doing an act expires on a holiday, the act may be done on the next day that is not a holiday.

## **3 Authorization**

- 3.1 The Licensee is authorized, under Part V of the Act and subject to the terms and conditions set out in this Licence:
- a) to own and operate a distribution system in the service area described in Schedule 1 of this Licence;

- b) to retail electricity for the purposes of fulfilling its obligation under section 29 of the Electricity Act in the manner specified in Schedule 2 of this Licence; and
- c) to act as a wholesaler for the purposes of fulfilling its obligations under the Retail Settlement Code or under section 29 of the Electricity Act.

#### **4 Obligation to Comply with Legislation, Regulations and Market Rules**

- 4.1 The Licensee shall comply with all applicable provisions of the Act and the Electricity Act and regulations under these Acts, except where the Licensee has been exempted from such compliance by regulation.
- 4.2 The Licensee shall comply with all applicable Market Rules.

#### **5 Obligation to Comply with Codes**

- 5.1 The Licensee shall at all times comply with the following Codes (collectively the “Codes”) approved by the Board, except where the Licensee has been specifically exempted from such compliance by the Board. Any exemptions granted to the Licensee are set out in Schedule 3 of this Licence. The following Codes apply to this Licence:
  - a) the Affiliate Relationships Code for Electricity Distributors and Transmitters;
  - b) the Distribution System Code;
  - c) the Retail Settlement Code; and
  - d) the Standard Supply Service Code.
- 5.2 The Licensee shall:
  - a) make a copy of the Codes available for inspection by members of the public at its head office and regional offices during normal business hours; and
  - b) provide a copy of the Codes to any person who requests it. The Licensee may impose a fair and reasonable charge for the cost of providing copies.

#### **6 Obligation to Provide Non-discriminatory Access**

- 6.1 The Licensee shall, upon the request of a consumer, generator or retailer, provide such consumer, generator or retailer with access to the Licensee’s distribution system and shall convey electricity on behalf of such consumer, generator or retailer in accordance with the terms of this Licence.

#### **7 Obligation to Connect**

- 7.1 The Licensee shall connect a building to its distribution system if:
  - a) the building lies along any of the lines of the distributor’s distribution system; and

- b) the owner, occupant or other person in charge of the building requests the connection in writing.

7.2 The Licensee shall make an offer to connect a building to its distribution system if:

- a) the building is within the Licensee's service area as described in Schedule 1; and
- b) the owner, occupant or other person in charge of the building requests the connection in writing.

7.3 The terms of such connection or offer to connect shall be fair and reasonable and made in accordance with the Distribution System Code, and the Licensee's Rate Order as approved by the Board.

7.4 The Licensee shall not refuse to connect or refuse to make an offer to connect unless it is permitted to do so by the Act or a regulation or any Codes to which the Licensee is obligated to comply with as a condition of this Licence.

## **8 Obligation to Sell Electricity**

8.1 The Licensee shall fulfill its obligation under section 29 of the Electricity Act to sell electricity in accordance with the requirements established in the Standard Supply Service Code, the Retail Settlement Code and the Licensee's Rate Order as approved by the Board.

## **9 Obligation to Maintain System Integrity**

9.1 The Licensee shall maintain its distribution system in accordance with the standards established in the Distribution System Code and Market Rules, and have regard to any other recognized industry operating or planning standards adopted by the Board.

## **10 Market Power Mitigation Rebates**

10.1 The Licensee shall comply with the pass through of Ontario Power Generation rebate conditions set out in Appendix A of this Licence.

## **11 Distribution Rates**

11.1 The Licensee shall not charge for connection to the distribution system, the distribution of electricity or the retailing of electricity to meet its obligation under section 29 of the Electricity Act except in accordance with a Rate Order of the Board.

## **12 Separation of Business Activities**

12.1 The Licensee shall keep financial records associated with distributing electricity separate from its financial records associated with transmitting electricity or other activities in accordance with the Accounting Procedures Handbook and as otherwise required by the Board.

### **13 Expansion of Distribution System**

- 13.1 The Licensee shall not construct, expand or reinforce an electricity distribution system or make an interconnection except in accordance with the Act and Regulations, the Distribution System Code and applicable provisions of the Market Rules.
- 13.2 In order to ensure and maintain system integrity or reliable and adequate capacity and supply of electricity, the Board may order the Licensee to expand or reinforce its distribution system in accordance with Market Rules and the Distribution System Code, or in such a manner as the Board may determine.

### **14 Provision of Information to the Board**

- 14.1 The Licensee shall maintain records of and provide, in the manner and form determined by the Board, such information as the Board may require from time to time.
- 14.2 Without limiting the generality of paragraph 14.1, the Licensee shall notify the Board of any material change in circumstances that adversely affects or is likely to adversely affect the business, operations or assets of the Licensee as soon as practicable, but in any event no more than twenty (20) days past the date upon which such change occurs.
- 14.3 The Licensee shall:
- a) immediately notify the Board in writing of the notice; and
  - b) provide a plan to the Board as soon as possible, but no later than ten (10) days after the receipt of the notice, as to how the affected distribution services will be maintained in compliance with the terms of this Licence.

### **15 Restrictions on Provision of Information**

- 15.1 The Licensee shall not use information regarding a consumer, retailer, wholesaler or generator obtained for one purpose for any other purpose without the written consent of the consumer, retailer, wholesaler or generator.
- 15.2 The Licensee shall not disclose information regarding a consumer, retailer, wholesaler or generator to any other party without the written consent of the consumer, retailer, wholesaler or generator, except where such information is required to be disclosed:
- a) to comply with any legislative or regulatory requirements, including the conditions of this Licence;
  - b) for billing, settlement or market operations purposes;
  - c) for law enforcement purposes; or
  - d) to a debt collection agency for the processing of past due accounts of the consumer, retailer, wholesaler or generator.

- 15.3 The Licensee may disclose information regarding consumers, retailers, wholesalers or generators where the information has been sufficiently aggregated such that their particular information cannot reasonably be identified.
- 15.4 The Licensee shall inform consumers, retailers, wholesalers and generators of the conditions under which their information may be released to a third party without their consent.
- 15.5 If the Licensee discloses information under this section, the Licensee shall ensure that the information provided will not be used for any other purpose except the purpose for which it was disclosed.

## **16 Customer Complaint and Dispute Resolution**

- 16.1 The Licensee shall:
- a) have a process for resolving disputes with customers that deals with disputes in a fair, reasonable and timely manner;
  - b) publish information which will make its customers aware of and help them to use its dispute resolution process;
  - c) make a copy of the dispute resolution process available for inspection by members of the public at each of the Licensee's premises during normal business hours;
  - d) give or send free of charge a copy of the process to any person who reasonably requests it; and
  - e) subscribe to and refer unresolved complaints to an independent third party complaints resolution service provider selected by the Board. This condition will become effective on a date to be determined by the Board. The Board will provide reasonable notice to the Licensee of the date this condition becomes effective.

## **17 Term of Licence**

- 17.1 This Licence shall take effect on September 29, 2004 and expire on September 28, 2024. The term of this Licence may be extended by the Board.

## **18 Fees and Assessments**

- 18.1 The Licensee shall pay all fees charged and amounts assessed by the Board.

## **19 Communication**

- 19.1 The Licensee shall designate a person that will act as a primary contact with the Board on matters related to this Licence. The Licensee shall notify the Board promptly should the contact details change.
- 19.2 All official communication relating to this Licence shall be in writing.
- 19.3 All written communication is to be regarded as having been given by the sender and received by the addressee:

- a) when delivered in person to the addressee by hand, by registered mail or by courier;
- b) ten (10) business days after the date of posting if the communication is sent by regular mail; and
- c) when received by facsimile transmission by the addressee, according to the sender's transmission report.

## **20 Copies of the Licence**

### **20.1 The Licensee shall:**

- a) make a copy of this Licence available for inspection by members of the public at its head office and regional offices during normal business hours; and
- b) provide a copy of this Licence to any person who requests it. The Licensee may impose a fair and reasonable charge for the cost of providing copies.

## **21 Conservation and Demand Management**

### **21.1 2011-2014 Conservation and Demand Management Framework**

21.1.1 The Licensee shall achieve reductions in electricity consumption and reductions in peak provincial electricity demand through the delivery of CDM programs. The Licensee shall meet its 2014 Net Annual Peak Demand Savings Target of 213.660 MW, and its 2011-2014 Net Cumulative Energy Savings Target of 1,130.210 GWh (collectively the "CDM Targets"), over a four-year period beginning January 1, 2011.

#### **21.1.2 The Licensee shall meet its CDM Targets through:**

- a) the delivery of Board approved CDM Programs delivered in the Licensee's service area ("Board-Approved CDM Programs");
- b) the delivery of CDM Programs that are made available by the OPA to distributors in the Licensee's service area under contract with the OPA ("OPA-Contracted Province-Wide CDM Programs"); or
- c) a combination of a) and b).

21.1.3 The Licensee shall make its best efforts to deliver a mix of CDM Programs to all consumer types in the Licensee's service area.

21.1.4 The Licensee shall comply with the rules mandated by the Board's Conservation and Demand Management Code for Electricity Distributors.

21.1.5 The Licensee shall utilize the common Provincial brand, once available, with all Board-Approved CDM Programs, OPA-Contracted Province-Wide Programs, and in conjunction with or co-branded with the Licensee's own brand or marks.

**21.2 2015-2020 Conservation and Demand Management Framework**

- 21.2.1 The Licensee shall, between January 1, 2015 and December 31, 2020, make CDM programs, available to customers in its licensed service area and shall, as far as is appropriate and reasonable having regard to the composition of its customer base, do so in relation to each customer segment in its service area ("CDM Requirement").
- 21.2.2 The CDM programs referred to in item 21.2.1 above shall be designed to achieve reductions in electricity consumption.
- 21.2.3 The Licensee shall meet its CDM Requirement by:
- a) making Province-Wide Distributor CDM Programs, funded by the Ontario Power Authority (the "OPA"), available to customers in its licensed service area;
  - b) making Local Distributor CDM Programs, funded by the OPA, available to customers in its licensed service area; or
  - c) a combination of a) and b).
- 21.2.4 The Licensee shall, as far as possible having regard to any confidentiality or privacy constraints, make the details and results of Local Distributor CDM Programs available to other licensed electricity distributors upon request.
- 21.2.5 The Licensee shall, as far as possible having regard to any confidentiality or privacy constraints, make the details and results of Local Distributor CDM Programs available to any other person upon request.
- 21.2.6 The Licensee shall report to the OPA the results of the CDM programs in accordance with the requirements of the licensee's "CDM-related" contract with the OPA.

**SCHEDULE 1                      DEFINITION OF DISTRIBUTION SERVICE AREA**

This Schedule specifies the area in which the Licensee is authorized to distribute and sell electricity in accordance with paragraph 8.1 of this Licence.

1.        Municipalities as set out in Appendix B – Tab 1.
2.        First Nation Reserves as set out in Appendix B – Tab 2.
3.        Unorganized Townships as set out in Appendix B – Tab 3.
4.        Municipalities in which a portion of the municipality is served by the Licensee and another portion of the municipality is served by another distributor. as set out in Appendix B – Tab 4.
5.        Consumers embedded within another distributor but served by the Licensee as set out in Appendix B – Tab 5.

**SCHEDULE 2                      PROVISION OF STANDARD SUPPLY SERVICE**

This Schedule specifies the manner in which the Licensee is authorized to retail electricity for the purposes of fulfilling its obligation under section 29 of the Electricity Act.

1.        The Licensee is authorized to retail electricity directly to consumers within its service area in accordance with paragraph 8.1 of this Licence, any applicable exemptions to this Licence, and at the rates set out in the Rate Orders.

### **SCHEDULE 3                      LIST OF CODE EXEMPTIONS**

This Schedule specifies any specific Code requirements from which the Licensee has been exempted.

1. The Licensee is exempt from the provisions of the Standard Supply Service Code for Electricity Distributors requiring time-of-use pricing for RPP consumers with eligible time-of-use meters, as of the mandatory date. This exemption applies only for service to approximately 170,000 of the identified hard to reach customers who, as of December 1, 2014 and as per Decision and Order EB-2014-0360, are outside the reach of the Licensee's smart meter telecommunications infrastructure, demonstrate consistently unreliable meter communication resulting in billing errors, and new hard to reach customers who are projected to be connected to Hydro One's service area during the requested exemption period. This exemption expires December 31, 2019.
2. The Licensee is exempt from the requirement of section 6.2.4.1e(i) of the Distribution System Code with respect to the following 12 generation projects, as per the Board's Decision and Order in EB-2010-0229:

Project ID	Generator Name	Project Name
11,690	Grand Valley Wind Farms Inc.	Grand Valley Wind Farms (Phase 2)
11,700	Invenergy Wind Centre ULC	Conestogo Wind Centre 2
11,720	Conestogo Wind, LP	Conestogo Wind Centre
11,870	International Power Canada, Inc.	Plateau I and II Wind
12,270	Pukwis Wind Partner Inc. & Pukwis Energy Co-op	Pukwis Community Wind Park
12,290	Glead Power Corporation	22.5 MW Ostrander Wind Farm
12,430	Grey Highlands Clean Energy LP	Grey Highlands Clean Energy
12,610	ZEP Wind Farm Ganaraska LP	ZEP Wind Farm Ganaraska
12,750	Clean Breeze Wind Park LP	Clean Breeze Wind Park
12,800	Southbranch Wind Farm Inc.	Southbranch Wind Farm
12,810	WPD Canada Corporation	Sumac Ridge Wind Farm
12,860	WPD Canada Corporation	Fairview Wind Farm

3. As per the Board's Decision and Order in EB-2011-0067, for generation facilities for which the primary energy source is water with a capacity not exceeding 10 megawatts and that are located on provincial Crown or federally-regulated lands and for which the electrical connection is to the distribution system owned by Hydro One Networks Inc. ("Hydro One"), Hydro One shall be exempted from the current connection cost deposit stipulated in s. 6.2.18(a) of the Distribution System Code (the "DSC") and shall, instead, adhere to the following schedule:
  - (a) \$20,000 per MW of capacity shall be paid by the proponent to Hydro One upon the execution of the Connection Cost Agreement.
  - (b) An additional deposit in the amount of 30% of the total estimated cost, as estimated by Hydro One, less the amount received by Hydro One under paragraph (a) above, shall be paid by the proponent to Hydro One no later than 6 months after the proponent notifies Hydro One that it has issued its statement of completion under the earlier of the Waterpower Class Environmental Assessment and the equivalent environmental assessment process under the Canadian Environmental Assessment Act.

- (c) No later than 180 days after Hydro One receives payment of the amount referenced in paragraph (b) above, Hydro One shall provide to the proponent a construction schedule and a more accurate estimate of the project cost, if such estimate is requested and paid for by the proponent. The payment for the estimate shall be drawn from the deposit to the extent possible.
- (d) The balance of the total estimated cost, as estimated by Hydro One based upon the best available information, shall be paid by the proponent to Hydro One no later than 30 days after the proponent notifies Hydro One that it has received the last of its necessary construction approval permits under Ontario's Lakes and Rivers Improvement Act or the Dominion Water Power Act.
- (e) Hydro One and the proponent shall mutually agree upon an in-service date that is no later than 2 years after Hydro One receives the balance referenced in paragraph (d), above, subject to the following: in cases where a transmission upgrade or new transmission facilities are required, Hydro One and the proponent may agree to an in-service date that is later than two years after Hydro One receives the balance referenced in paragraph (d), above.
- (f) The Expansion Deposit, as stipulated by Section 3.2.20 of the DSC, shall be paid to Hydro One at the same time as the payment in paragraph (d).

Notwithstanding the foregoing, if at any time the above-noted payments to Hydro One are insufficient to cover Hydro One's costs as estimated by Hydro One, the proponent shall pay, to Hydro One, additional funding sufficient to meet the shortfall identified by Hydro One, and Hydro One shall be relieved of its obligation to perform such further work until it receives the said additional funding.

- 4. For the Trout Creek Wind Farm (Hydro One Project #12,780), Hydro One shall be exempted from the current connection cost deposit stipulated in s. 6.2.18(a) of the Distribution System Code (the "DSC") and shall, instead, adhere to the following schedule:
  - (a) \$20,000 per MW of capacity shall be paid by the proponent to Hydro One upon the execution of the Connection Cost Agreement.
  - (b) An additional deposit in the amount of 30% of the total estimated cost, as estimated by Hydro One, less the amount received by Hydro One under paragraph (a) above, shall be paid by the proponent to Hydro One no later than 4 months after the proponent notifies Hydro One that it has completed the Renewable Energy Approval.
  - (c) No later than 180 days after Hydro One receives payment of the amount referenced in paragraph (b) above, Hydro One shall provide to the proponent a construction schedule and a more accurate estimate of the project cost, if such estimate is requested and paid for by the proponent. The payment for the estimate shall be drawn from the deposit to the extent possible.
  - (d) The balance of the total estimated cost, as estimated by Hydro One based upon the best available information, shall be paid by the proponent to Hydro One no later than 30 days after the proponent notifies Hydro One that it is proceeding to construction. If this notification is not given by May 31, 2015, then the proponent's capacity allocation shall be removed.

- (e) Hydro One and the proponent shall mutually agree upon an in-service date that is no later than 2 years after Hydro One receives the balance referenced in paragraph (d), above, subject to the following: in cases where a transmission upgrade or new transmission facilities are required, Hydro One and the proponent may agree to an in-service date that is later than two years after Hydro One receives the balance referenced in paragraph (d), above.
- (f) The Expansion Deposit, as stipulated by Section 3.2.20 of the DSC shall be paid to Hydro One at the same time as the payment in paragraph (d).

Notwithstanding the foregoing, if at any time the above-noted payments to Hydro One are insufficient to cover Hydro One's costs as estimated by Hydro One, the proponent shall pay, to Hydro One, additional funding sufficient to meet the shortfall identified by Hydro One, and Hydro One shall be relieved of its obligation to perform such further work until it receives the said additional funding.

5. As per the Board's Decision and Order in EB-2012-0343:

- (a) The Licensee is exempt from section 6.2.6 of the Distribution System Code for micro-embedded generation projects that are an indirect connection requiring a site assessment. This exemption expires August 3, 2013 or six months after the conclusion of the Board's consultation EB-2012-0246, whichever is earlier. During the period of exemption, for micro-embedded generation projects that are an indirect connection requiring a site assessment, the Licensee shall be required to issue an offer to connect or issue reasons for refusal within 30 days, for at least 90% of applications. If a customer requests a delay with respect to 6.2.6, the additional time will be added to the timeline. Hydro One Networks Inc. shall track its compliance with this provision. For all projects other than micro-embedded generation projects that are an indirect connection requiring a site assessment, the application of section 6.2.6 of the Distribution System Code shall remain unchanged.
- (b) The Licensee is exempt from the provisions of 6.2.7 of the Distribution System Code for micro-embedded generation applications. This exemption expires August 3, 2013 or six months after the conclusion of the Board's consultation EB-2012-0246, whichever is earlier. During the period of exemption, the Licensee shall comply with the provisions of sections 7.2.1 and 7.2.3 of the Distribution System Code.

6. The Licensee is exempt from the provisions of sections 2.10.1 and 7.11.1 to 7.11.7 of the Distribution System Code, limiting the use of estimated billing and requiring billing accuracy. This exemption applies only for service to approximately 170,000 of the identified hard to reach customers who, as of December 1, 2014 and as per Decision and Order EB-2014-0360 & EB-2015-0176, are outside the reach of the Licensee's smart meter telecommunications infrastructure, demonstrate consistently unreliable meter communication resulting in billing errors, and as of April 15, 2015 would fail to meet the Distribution System Code requirements for accurate bills. The identified customers also include new hard to reach customers who are projected to be connected to Hydro One's service area during the requested exemption period. This exemption expires December 31, 2019.

**SCHEDULE 4            LIST OF RRR EXEMPTIONS**

The Licensee is exempt from the following sections of the Electricity Reporting and Record Keeping Requirements:

1. Section 2.1.5.5 (b)

## APPENDIX A

### MARKET POWER MITIGATION REBATES

#### 1. Definitions and Interpretations

In this Licence

“embedded distributor” means a distributor who is not a market participant and to whom a host distributor distributes electricity;

“embedded generator” means a generator who is not a market participant and whose generation facility is connected to a distribution system of a distributor, but does not include a generator who consumes more electricity than it generates;

“host distributor” means a distributor who is a market participant and who distributes electricity to another distributor who is not a market participant.

In this Licence, a reference to the payment of a rebate amount by the IESO includes interim payments made by the IESO.

#### 2. Information Given to IESO

- a Prior to the payment of a rebate amount by the IESO to a distributor, the distributor shall provide the IESO, in the form specified by the IESO and before the expiry of the period specified by the IESO, with information in respect of the volumes of electricity withdrawn by the distributor from the IESO-controlled grid during the rebate period and distributed by the distributor in the distributor’s service area to:
  - i consumers served by a retailer where a service transaction request as defined in the Retail Settlement Code has been implemented; and
  - ii consumers other than consumers referred to in clause (i) who are not receiving the fixed price under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998*.
- b Prior to the payment of a rebate amount by the IESO to a distributor which relates to electricity consumed in the service area of an embedded distributor, the embedded distributor shall provide the host distributor, in the form specified by the IESO and before the expiry of the period specified in the Retail Settlement Code, with the volumes of electricity distributed during the rebate period by the embedded distributor’s host distributor to the embedded distributor net of any electricity distributed to the embedded distributor which is attributable to embedded generation and distributed by the embedded distributor in the embedded distributor’s service area to:
  - i consumers served by a retailer where a service transaction request as defined in the Retail Settlement Code has been implemented; and
  - ii consumers other than consumers referred to in clause (i) who are not receiving the fixed price under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998*.
- c Prior to the payment of a rebate amount by the IESO to a distributor which relates to electricity

consumed in the service area of an embedded distributor, the host distributor shall provide the IESO, in the form specified by the IESO and before the expiry of the period specified by the IESO, with the information provided to the host distributor by the embedded distributor in accordance with section 2.

The IESO may issue instructions or directions providing for any information to be given under this section. The IESO shall rely on the information provided to it by distributors and there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.

For the purposes of attributing electricity distributed to an embedded distributor to embedded generation, the volume of electricity distributed by a host distributor to an embedded distributor shall be deemed to consist of electricity withdrawn from the IESO-controlled grid or supplied to the host distributor by an embedded generator in the same proportion as the total volume of electricity withdrawn from the IESO-controlled grid by the distributor in the rebate period bears to the total volume of electricity supplied to the distributor by embedded generators during the rebate period.

### **3. Pass Through of Rebate**

A distributor shall promptly pass through, with the next regular bill or settlement statement after the rebate amount is received, any rebate received from the IESO, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt, to:

- a retailers who serve one or more consumers in the distributor's service area where a service transaction request as defined in the Retail Settlement Code has been implemented;
- b consumers who are not receiving the fixed price under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998* and who are not served by a retailer where a service transaction request as defined in the Retail Settlement Code has been implemented; and
- c embedded distributors to whom the distributor distributes electricity.

The amounts paid out to the recipients listed above shall be based on energy consumed and calculated in accordance with the rules set out in the Retail Settlement Code. These payments may be made by way of set off at the option of the distributor.

If requested in writing by OPGI, the distributor shall ensure that all rebates are identified as coming from OPGI in the following form on or with each applicable bill or settlement statement:

“ONTARIO POWER GENERATION INC. rebate”

Any rebate amount which cannot be distributed as provided above or which is returned by a retailer to the distributor in accordance with its licence shall be promptly returned to the host distributor or IESO as applicable, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt.

Nothing shall preclude an agreement whereby a consumer assigns the benefit of a rebate payment to a retailer or another party.

Pending pass-through or return to the IESO of any rebate received, the distributor shall hold the funds received in trust for the beneficiaries thereof in a segregated account.

## **ONTARIO POWER GENERATION INC. REBATES**

For the payments that relate to the period from May 1, 2006 to April 30, 2009, the rules set out below shall apply.

### **1. Definitions and Interpretations**

In this Licence

“embedded distributor” means a distributor who is not a market participant and to whom a host distributor distributes electricity;

“embedded generator” means a generator who is not a market participant and whose generation facility is connected to a distribution system of a distributor, but does not include a generator who consumes more electricity than it generates;

“host distributor” means a distributor who is a market participant and who distributes electricity to another distributor who is not a market participant.

In this Licence, a reference to the payment of a rebate amount by the IESO includes interim payments made by the IESO.

### **2. Information Given to IESO**

- a Prior to the payment of a rebate amount by the IESO to a distributor, the distributor shall provide the IESO, in the form specified by the IESO and before the expiry of the period specified by the IESO, with information in respect of the volumes of electricity withdrawn by the distributor from the IESO-controlled grid during the rebate period and distributed by the distributor in the distributor’s service area to:
  - i consumers served by a retailer where a service transaction request as defined in the Retail Settlement Code has been implemented and the consumer is not receiving the prices established under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998*; and
  - ii consumers other than consumers referred to in clause (i) who are not receiving the fixed price under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998*.
- b Prior to the payment of a rebate amount by the IESO to a distributor which relates to electricity consumed in the service area of an embedded distributor, the embedded distributor shall provide the host distributor, in the form specified by the IESO and before the expiry of the period specified in the Retail Settlement Code, with the volumes of electricity distributed during the rebate period by the embedded distributor’s host distributor to the embedded distributor net of any electricity distributed to the embedded distributor which is attributable to embedded generation and distributed by the embedded distributor in the embedded distributor’s service area to:
  - i consumers served by a retailer where a service transaction request as defined in the Retail Settlement Code has been implemented; and

- ii consumers other than consumers referred to in clause (i) who are not receiving the fixed price under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998*.
- c Prior to the payment of a rebate amount by the IESO to a distributor which relates to electricity consumed in the service area of an embedded distributor, the host distributor shall provide the IESO, in the form specified by the IESO and before the expiry of the period specified by the IESO, with the information provided to the host distributor by the embedded distributor in accordance with section 2.

The IESO may issue instructions or directions providing for any information to be given under this section. The IESO shall rely on the information provided to it by distributors and there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.

For the purposes of attributing electricity distributed to an embedded distributor to embedded generation, the volume of electricity distributed by a host distributor to an embedded distributor shall be deemed to consist of electricity withdrawn from the IESO-controlled grid or supplied to the host distributor by an embedded generator in the same proportion as the total volume of electricity withdrawn from the IESO-controlled grid by the distributor in the rebate period bears to the total volume of electricity supplied to the distributor by embedded generators during the rebate period.

### **3. Pass Through of Rebate**

A distributor shall promptly pass through, with the next regular bill or settlement statement after the rebate amount is received, any rebate received from the IESO, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt, to:

- a retailers who serve one or more consumers in the distributor's service area where a service transaction request as defined in the Retail Settlement Code has been implemented and the consumer is not receiving the prices established under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998*;
- b consumers who are not receiving the fixed price under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998* and who are not served by a retailer where a service transaction request as defined in the Retail Settlement Code has been implemented; and
- c embedded distributors to whom the distributor distributes electricity.

The amounts paid out to the recipients listed above shall be based on energy consumed and calculated in accordance with the rules set out in the Retail Settlement Code. These payments may be made by way of set off at the option of the distributor.

If requested in writing by OPGI, the distributor shall ensure that all rebates are identified as coming from OPGI in the following form on or with each applicable bill or settlement statement:

“ONTARIO POWER GENERATION INC. rebate”

Any rebate amount which cannot be distributed as provided above or which is returned by a retailer to the distributor in accordance with its licence shall be promptly returned to the host

distributor or IESO as applicable, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt.

Nothing shall preclude an agreement whereby a consumer assigns the benefit of a rebate payment to a retailer or another party.

Pending pass-through or return to the IESO of any rebate received, the distributor shall hold the funds received in trust for the beneficiaries thereof in a segregated account.
