LETTER OF COMMENT

Comments:

I am opposed to the ideal that existing customers should pay any of the costs for the expansion of service to new customers. If the new customer base cannot support the costs of service to them, then the new service should not proceed. I am totally against paying to subsidize other users. The existing users are receiving no benefit for the additional fees the proposal is requesting them to pay.

As well I oppose the idea that Union Gas be allowed to charge existing customers for future expansion without any further involvement or approval from the Ontario Energy Board.

I am urging you to disallow all proposals presented in case EB-2015-0179. It is not in the best interest of the customer base of Union Gas.
