Dear Ms. Walli:

**Re: Enbridge Gas Distribution Inc. ("Enbridge")  
EB-2014-0378 – Wilkesport Wells – Licence to Drill  
Conditions of Approval – In-Service Dates/Monitoring Reports**

On June 4, 2015, the Ontario Energy Board (the "Board") issued its report to the Minister of Natural Resources and Forestry for the above noted proceeding wherein the Board approved Enbridge's application for well drilling licences.

Enbridge would like to provide the following update regarding the progress of the drilling of the wells:

1. TW#15H – Sombra 3-15-XIII  
Drilling was completed on July 29, 2015. This would be put into service in 2016 pending completion and connection to the gathering lines.
2. TW#16H – Sombra 3-15-XIII  
Drilling was completed on July 14, 2015 and was put into service on September 23, 2015.

As a condition of the monitoring and reporting requirements Enbridge is to file an Interim Monitoring report within six months of the in-service date which would require the report for the TW#16H well to be filed by March 23, 2016.

Due to winter and early spring conditions and in order to conduct a proper assessment of the project area Enbridge is requesting approval to vary the filing of the Interim

Monitoring report from March until May 23, 2016 and the Final Monitoring report until May 2017.

Any future developments will be communicated to the Board.

Please contact me if you have any questions.

Yours truly,
