Jill Caughey & Mike Walhout
[REDACTED]

Dear Jill Caughey & Mike Walhout

**Re: Windlectric Inc. - Application for Leave to Construct Transmission
Facilities under Section 92 (1) of the OEB Act - OEB File No. EB-2014-0300**

Thank you for submitting your letter dated September 29, 2015 regarding Windlectric Inc.'s Leave to Construct (LTC) Application. Windlectric Inc.'s LTC Application to the OEB concerns construction of the proposed transmission line and connecting transmission facilities only. It does not concern the construction or operation of the Amherst Island Wind Energy Project itself. In your email you indicated that your property is located [REDACTED] on Amherst Island. However, your property is not one of the properties affected by the transmission line routing or connecting transmission facilities that is the subject of the LTC Application. Hence, any issues regarding your property are beyond the scope of the Application and outside of the jurisdiction of the Ontario Energy Board. For that reason you did not receive notice or further information regarding the LTC Application or proceeding or any information about Windlectric Inc.'s application, nor given the opportunity to comment on the application.

I trust this letter responds to the matter raised in your letter.

Yours truly,

Original Signed By

Kirsten Walli
