Ms. Kirsten Walli  
Board Secretary  
Ontario Energy Board  
Suite 2700, 2300 Yonge Street  
P.O. Box 2319  
Toronto, ON  
M4P 1E4

Dear Ms. Walli:

**EB-2006-0180 and EB-2015-0282: Status Report on Operations of Cat Lake**

Hydro One is providing this update to the Board in advance of the expiry on October 23, 2015 of the current Interim Distribution Licence for Cat Lake.

In a Decision and Order dated July 21, 2006 (EB-2006-0180), the Board issued an order (ED-2006-0181) deeming as distribution assets all the transmission assets owned by the Cat Lake Public Utility, and issued a 3-month interim distribution licence to Hydro One. The Board ordered Hydro One to take possession and control of the deemed distribution assets owned by Cat Lake Power and the distribution assets in the Cat Lake community owned by the Ontario Electricity Financial Corporation. Hydro One Networks Inc. ("Hydro One") assumed possession and control of the assets covered by this order at 12:01 am on August 14, 2006. The Board has subsequently amended the interim electricity distribution licence ED-2006-0181, and has extended it for consecutive 3-month terms, most recently on July 24, 2015 (EB-2015-0222). Hydro One Remote Communities Inc. ("Remotes") is still expecting to file a MAADs application to include Cat Lake in Remotes' service territory, as noted by the Board in its Decision and Order in Remotes' 2013 rate application (EB-2012-0137), once an agreement with the community has been reached and required government approvals have been secured.

This progress report updates the report that Hydro One filed on July 15, 2015. It covers the Cat Lake utility activities to date and provides financial results until September 30, 2015.

***Tracking of Cost***

As directed, Hydro One is recording the revenues from the customers in the Cat Lake community and the "costs of operation and maintenance of the system." The energy costs, OM&A costs and

capital costs are recorded separately. As of September 30, 2015, the total costs recorded since taking possession and control are as follows:

Cumulative Costs incurred by Hydro One for Cat Lake

|                 |                    |
|-----------------|--------------------|
| Capital:        | \$1,083,751        |
| OM&A:           | \$4,041,305        |
| Cost of Energy: | \$2,680,429        |
| Interest Cost:  | \$175,637          |
| <b>Total</b>    | <b>\$7,981,123</b> |

***Tracking of Revenue***

Bills have been issued to customers on a monthly basis, with the most recent bills in the reporting period issued in September 2015. The total amount invoiced at that time was approximately \$1,255,237. This amount includes HST, arrears, and late payment charges where applicable. The issued bills include the following amounts:

|                       |                    |
|-----------------------|--------------------|
| Current (0-39 days):  | \$105,582          |
| Overdue (40-69 days): | \$28,126           |
| Overdue (70-89 days): | \$8,296            |
| Overdue (90+days):    | \$1,113,234        |
| <b>Total</b>          | <b>\$1,255,237</b> |

As of September 30, 2015, Hydro One has cumulatively collected the following amounts from Cat Lake customers (rounded to the nearest dollar):

|                            |                    |
|----------------------------|--------------------|
| September to December 2006 | \$29,787           |
| January to December 2007   | \$477,319          |
| January to December 2008   | \$477,751          |
| January to December 2009   | \$437,198          |
| January to December 2010   | \$446,712          |
| January to December 2011   | \$488,469          |
| January to December 2012   | \$566,363          |
| January to December 2013   | \$298,490          |
| January to December 2014   | \$234,072          |
| January to March 2015      | \$63,548           |
| April to June 2015         | \$208,888          |
| July 2015                  | \$54,290           |
| August 2015                | \$40,107           |
| September 2015             | \$32,153           |
| <b>Total</b>               | <b>\$3,855,145</b> |

### ***Regulatory Assets account balance***

As of September 30, 2015 the balance in the deferral account related to Cat Lake is \$4,125,977.

### ***Operations***

Operations were normal with no significant events during the three-month reporting period (July – September 2015).

### ***Planned Work and Further Reporting***

Below are updates to previously planned but incomplete work and other reporting items for Cat Lake:

1. **Restocking of depleting inventory** [\$300,000] Status (Unchanged).
2. **Cat Lake transmission and distribution work:** Work to correct the electrical clearance on a transmission line tap for Cat Lake was completed in July 2015 due to rescheduled outage dates on the E1C.
3. **Revenues:** The values in overdue amounts continue to reflect the impact of the suspension of Hydro One's collections program for substantial periods in 2013 and 2014. Although the collections program has been reactivated since it was temporarily deactivated in 2014, the implementation has been conservative, to ensure that the process is sound and addresses the appropriate customers.

Hydro One continues to operate the Cat Lake system and to manage issues associated with its operations. We will also continue to inform the Board and its staff of any significant issues, to solicit advice and guidance as needed, and to provide information in support of the Board's review of the Cat Lake situation.

Sincerely,

Seung-Yoon L. Lee
