Dear Mr. Shepherd:

**Re: Horizon Utilities Corporation - 2016 Rates  
Board File No. EB-2015-0075**

The OEB is in receipt of your letter, dated October 13, 2015, requesting late intervenor status and expressing concerns regarding the procedural steps outlined in Procedural Order No. 1 issued October 7, 2015.

In particular you have requested that the OEB clarify how the information at the technical conference will become part of the record of the proceeding or that the OEB amend the procedural order to provide for transcription at the technical conference.

I note that the procedural order for this case clearly provides for undertakings to be given during the technical conference and for responses to the undertakings to be filed on the record. To the extent that the answer to any particular question results in an amendment to the evidence currently filed in the case, that amendment would also form part of the record.

You have also requested intervenor status on a late-filed basis, which is hereby granted on condition that School Energy Coalition must accept the record as it stands.

**ONTARIO ENERGY BOARD**

**By delegation, before: Kristi Sebalj**
