Kirsten Walli  
Board Secretary  
Ontario Energy Board  
2300 Yonge Street  
Suite 2700  
Toronto, ON M4P 1E4

Dear Ms. Walli:

**Re: Enbridge Gas Distribution Inc. (the "Company" or "Enbridge")  
Ontario Energy Board File: EB-2015-0267  
Application for 2014 Demand Side Management ("DSM") Clearance of  
Variance Accounts and Request for Confidentiality**

---

Enclosed are copies of the Application and supporting evidence of Enbridge for an Order approving the amounts recorded in the 2014 DSM deferral and variance accounts and for approval for disposition of these amounts at the next available QRAM application.

Please note that the supporting evidence includes the reports of two Custom Project Savings Verification ("CPSV") contractors, MMM Group Ltd. and Cole Engineering Group Ltd. ("CPSV Reports"). For the reasons set out below, Enbridge seeks confidential treatment of the CPSV Reports to the extent of the redactions made on these reports.

This request for confidential treatment is made pursuant to the *Board's Practice Direction on Confidential Filings*, effective April 24, 2014 ("Direction") and Rule 10 of the *Board's Rules of Practice and Procedure* ("Rules").

Information has been redacted where it might reveal the identity of program participants, the location of participating facilities, and their internal processes and operations. These are either matters of privacy or commercial sensitivity. Enbridge has committed to protect such information, and it is the expectation of custom program participants that this will occur. Enbridge's future efforts to attract program participants could be prejudicially impacted if such information is released publicly.

October 30, 2015  
Ms. Kirsten Walli  
Page 2 of 2

As there may be only two or three competitors within a certain industry, to the extent that a competitor is able to identify a program participant from one of the CPSV Reports and to make use of any operations or process data, such information could have a negative effect on the competitiveness of the program participant.

In accordance with the Direction and the Rules, the Company is providing two paper copies of the unredacted versions of the CPSV Reports, with shading identifying those sections for which confidential treatment is requested. These versions of the CPSV Reports are marked Confidential. Also attached to this letter is a short description of the two reports.

In addition, the Company has attached two paper copies of the redacted versions of the CPSV Reports which may be placed on the public record together with the balance of the Application.

The above information is being filed through the Board's Regulatory Electronic Submission System today. Enbridge will provide the redacted Application materials on the Company's website at [www.enbridgegas.com/about/regulatory-affairs](http://www.enbridgegas.com/about/regulatory-affairs).

Please contact the undersigned if you have any questions.

Yours truly,

(Original Signed)

Andrew Mandyam  
Director, Regulatory Affairs
