

Description of Exhibit B-5-1 and Exhibit B-5-2 of
Enbridge's 2014 Clearance of Accounts Application (EB-2015-0267)

Enbridge's Application materials included reports by:

- 1) MMM Group Limited titled "Engineering Review of Enbridge Gas Distribution 2014 Custom Projects", dated April 13, 2015, filed as Exhibit B-5-1, and
- 2) Cole Engineering Group Ltd. titled "Independent Review 2014 Industrial Custom Project Savings Verification Ontario", dated April 13, 2015, filed as Exhibit B-5-2.

Following is a short description of each report.

- 1) The MMM Group Limited was contracted as the independent third-party engineering firm to complete the Commercial Custom Project Savings Verification (CPSV) for 2014. This verification study consists of a detailed evaluation of gas savings, for comparison to the utility's savings calculations, for a statistically representative sample of Commercial (including Low Income Multi-Residential) custom projects claimed in 2014. This report summarizes the findings for each custom project review undertaken in the verification study.
- 2) Cole Engineering Group Ltd. was contracted as the independent third-party engineering firm to complete the Industrial Custom Project Savings Verification (CPSV) for 2014. This verification study consists of a detailed evaluation of gas savings, for comparison to the utility's savings calculations, for a statistically representative sample of Industrial custom projects claimed in 2014. This report summarizes the findings for each custom project review undertaken in the verification study.
