

ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF BRANT COUNTY POWER INC.

Brant County Power Inc. has applied to adjust the rates it charges for the distribution of electricity.

Learn more.

Brant County Power Inc. has applied to the Ontario Energy Board to increase the amount it charges for distributing electricity by approximately \$0.65 each month for a typical residential customer that uses 800kWh of electricity per month starting on May 1, 2016. Other customers, including businesses, may be affected as well.

The rate change is due to:

- a change in rate design to transition to a new residential rate structure over a four year period as required by the Ontario Energy Board
- a request to dispose of the balance in an account that tracks the difference between the actual impacts of conservation programs compared to what was predicted

Brant County Power Inc. is not requesting a formulaic rate adjustment tied to inflation and other factors as permitted by the Ontario Energy Board.

Your current electricity distribution rates are based on a combination of fixed and variable charges. Beginning in 2016, all electricity distributors are required to structure residential rates so that all the costs for distribution service are collected through a fixed monthly charge. As the Ontario Energy Board discusses in its policy paper ontarioenergyboard.ca/ratedesign, this is a fairer and more transparent way to recover costs related to power distribution.

The policy applies only to the cost of distributing electricity. It does not affect the cost of the electricity itself, or other electricity-related charges, which together make up most of a typical customer's bill and will continue to be charged based on how much electricity a customer uses.

The change in rate design will not change the total amount of money your electricity distributor recovers from its residential customers. In fact, most residential customers in Ontario will see little change on their bill after the new policy is fully implemented. The impact of this change on your bill will depend on the amount of electricity you use, but the changes are being made over four years starting in 2016 to mitigate the impact of any increases. The four-year period was established so that the increase to the monthly fixed charge would mean increases of no more than \$4 in any year for most distributors. In Brant County Power Inc.'s case, the increase required to complete the transition to a fully fixed charge in four years is \$4.37. Brant County Power Inc. has proposed to proceed with this change and a four year implementation schedule rather than taking a fifth year to implement the transition.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Brant County Power's request. We will determine whether Brant County Power has used the applicable models and formulas as required by the OEB and whether to approve Brant County Power's request for not mitigating the impact of the shift to fixed rates. At the end of this hearing, the OEB will decide on the appropriate rate changes.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process:

- You can review Brant County Power's application on the OEB's website now.
- You can file a letter with your comments, which will be considered during the hearing.
- You can become an active participant (called an intervenor). Apply no later than **November 30, 2015** or the hearing will go ahead without you and you will not receive any further notice of the proceeding.
- At the end of the process, you can review the OEB's decision and its reasons on our website.

The OEB intends to consider cost awards in this proceeding that are in accordance with the *Practice Direction on Cost Awards* and are in relation to Brant County Power Inc.'s proposal not to mitigate the impact of the shift to fixed rates beyond the OEB-mandated 4 year transition period.

LEARN MORE

These proposed charges relate to Brant County Power's distribution services. They make up part of the Delivery line - one of the five line items on your bill. Our file number for this case is **EB-2015-0054**. To learn more about this hearing, find instructions on how to file letters or become an intervenor, or to access any document related to this case, select the appropriate application from the list at the OEB website: <http://www.ontarioenergyboard.ca/notice>. You can also phone our Consumer Relations Centre at 1-877-632-2727 with any questions.

WRITTEN HEARINGS

There are two types of OEB hearings – oral and written. Brant County Power has applied for a written hearing. The OEB is considering this request. If you think an oral hearing is needed, you can write to the OEB to explain why by **November 30, 2015**.

PRIVACY

If you write a letter of comment, your name and the content of your letter or the documents you file with the OEB will be put on the public record and the OEB website. However, your personal telephone number, home address and email address will be removed. If you are a business, all your information will remain public. If you apply to become an intervenor, all information will be public.

This rate hearing will be held under section 78 of the Ontario Energy Board Act, 1998, S.O. 1998 c.15 (Schedule B).
