ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF WASAGA DISTRIBUTION INC.

**Wasaga Distribution Inc. has applied to raise
its electricity distribution rates.**

Learn more. Have your say.

Wasaga Distribution Inc. has applied to the Ontario Energy Board to increase the amount it charges by \$2.25 each month for the typical residential customer beginning on May 1, 2016. Other customers, including businesses, may be affected as well.

Wasaga Distribution Inc. has also applied to increase certain specific service charges. It is important to review the application carefully to determine whether you may be affected by these changes.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Wasaga Distribution's request. We will question the company on its case for a rate increase. We will also hear arguments from individuals and from groups that represent Wasaga Distribution's customers. At the end of this hearing, the OEB will decide what, if any, increase will be allowed.

Distributors such as Wasaga Distribution typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying a formula that is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process. You can:

- You can review Wasaga Distribution's application on the OEB's website now.
- You can file a letter with your comments, which will be considered during the hearing.
- You can become an active participant (called an intervenor). Apply by **October 26, 2015** or the hearing will go ahead without you and you will not receive any further notice of the proceeding.
- At the end of the process, you can review the OEB's decision and its reasons on our website.

RTO/ERO is a non-partisan organization.

**RTO/ERO and its members believe that the two most important issues facing
all Canadians, and especially seniors, are healthcare and pensions.**

Healthcare

RTO/ERO is seeking from the Federal Government and the provinces a commitment to a phased-in, managed approach to universal healthcare that combines prevention and remediation. This would include a campaign to encourage all Canadians to adopt healthier lifestyles, as well as a Pharmacare program that leaves the provinces responsible for the management of healthcare through an integrated, funded agreement between the provinces and the Federal Government.

Pensions

RTO/ERO believes it is imperative that our political leaders address the absence of pension plans for 75% of private sector workers who constitute the majority of the workforce. The matter of assisting Canadians to plan for their retirement, and thus to be more self-reliant in their senior years, is an opportunity to raise the quality of life of Canadians.

RTO/ERO's Recommendations

- ① That the Prime Minister convene a meeting of Premiers and Provincial Finance Ministers to work out a time frame for a phased-in universal health care program, and that such a program include a cooperative Federal-Provincial Pharmacare Program.
- ② That the Federal Government undertake an expansion of the CPP in conjunction with the Province and Territories to ensure that Canadians can continue to maintain a reasonable standard of living in their retirement years.
