Subject: EB-2015-0079

Per the notice published on the OEB website I wish to apply for intervenor status in the above noted proceeding representing the Horseshoe Lake Coalition (HLC). Horseshoe Lake has about 300 H1 customers, roughly 10% in the R2 class and most of the rest in the Seasonal Class.

A number have no service from H1, depending instead on propane heating, cooking and lighting.

My preference is for a written hearing but if an oral hearing is selected I will put forth reasonable efforts to attend.
