Dear Ms. Walli:

**Re: Enersource Hydro Mississauga Inc. Application for Distribution Rates Effective
January 1, 2016, Board File No. EB-2015-0065
Request for Interim Rates**

Enersource filed its 2016 Price Cap IR and ICM application ("Application") on August 17, 2015, and additional evidence on September 23 and October 2, 2015. Enersource awaits the Ontario Energy Board's ("the Board") procedural order which will determine the schedule for this proceeding. In the event that the schedule does not allow a decision in time for a January 1, 2016 rate order, Enersource respectfully requests that the Board declare Enersource's currently approved distribution rates as interim, effective January 1, 2016, and that consideration of revenue deficiency incurred during the interim period be assessed and decided upon when rate orders are proposed. This request would be waived in the event that new rates are approved by December 31, 2015.

Enersource makes this request for interim rates without prejudice to a decision on its Application. Further, Enersource understands that approval of this request is not indicative of the Board's direction in the Application.

Two hard copies of this letter will be sent to the Board in addition to filing this via RESS.
