Dear Ms. Walli:

**Re: Hydro One Networks Inc. Application for an Amendment to Electricity  
Transmitter Licence ET-2003-0035 - OEB File # EB-2015-0270**

On September 9, 2015, Hydro One Networks Inc. (Hydro One) applied to the Board for an amendment to its Electricity Transmission Licence (ET-2003-0035).

The amendment would give effect to a Cost Sharing Agreement between OPG and Hydro One dated December 08, 2014, a copy of which was attached to Hydro One's application (the "Cost Sharing Agreement").

In its application, Hydro One requested that the Board accept the terms and conditions of the Cost Sharing Agreement and that the Board consider:

- (i) amending Hydro One's Transmission Licence to remove all exemption provisions pertaining to this matter (specifically, section 8 in Schedule 3 of Hydro One's Transmission Licence); and,
- (ii) issuing an order to direct Hydro One and OPG to enter into a modified form of connection agreement (for Pickering "A" and Pickering "B" stations) that would give effect to the terms and conditions set out in the Cost Sharing Agreement.

OPG has reviewed the application and supporting material submitted by Hydro One.

I can advise that OPG supports the application filed by Hydro One, including the specific amendments and orders requested.

Yours Truly,
