File # EB-2015-0091

ONTARIO ENERGY BOARD

EB-2015-0091

The most expensive bills a Ontario homeowner has are the utilities.

Hydro is the highest monthly cost in our household.

My husband and I live in a simple 1300 square foot bungalow in Niagara-on-the-Lake.

We balance our lives daily to stay within our budget.

The Hydro rates across Ontario must be equal and fair for all, and stay the same rates for all.

To segregate would be cruel punishment and create racism.

I am very upset with this Hydro rate proposal.

I always thought Ontario was fair, and a great place to live!

Thank you, Mary O'Keefe
