INTERIM ORDER

EB-2015-0336

EDF TRADING NORTH AMERICA, LLC

Application for an Electricity Wholesale Licence

BY DELEGATION, BEFORE: Peter Fraser
Vice President
Industry Operations & Performance

November 23, 2015

INTERIM ORDER

EDF Trading North America, LLC (EDF) filed an application on November 19, 2015, with the Ontario Energy Board (OEB) pursuant to section 60 of the *Ontario Energy Board Act, 1998* to renew its electricity wholesaler licence EW-2010-0262.

The licence that is a subject of this renewal application was issued to the applicant on November 23, 2010 and remains in force until November 22, 2015. The applicant filed its application late providing insufficient time for processing the licence renewal application prior to the current licence expiry. The licence provides that the term may be extended by the OEB. The applicant is currently engaged in purchasing and selling electricity and ancillary services in the IESO-administered markets in Ontario.

Considering the time required to process an application in accordance with the OEB's established practice and procedures, and considering the applicant's activities, I find that it is in the public interest to issue an interim order granting a short-term extension to the applicant's electricity wholesaler licence EW-2010-0262 pending the final disposition of the matter.

The applicant is reminded that it carries the onus of filing an application on a timely basis given the requirements of the OEB's typical timelines of processing licence applications. The applicant is also reminded that this order does not constitute a final decision on the application.

IT IS ORDERED THAT:

The term of EDF Trading North America, LLC licence EW-2010-0262 is extended until the licence renewal application is determined on a final basis.

DATED at Toronto November 23, 2015

ONTARIO ENERGY BOARD
