Dear Mr. Janigan:

**Re: Enersource Hydro Mississauga Inc.
Ontario Energy Board File Number: EB-2015-0065
Request for Late Intervenor Status**

The Ontario Energy Board (OEB) has received your November 30, 2015 request on behalf of the Vulnerable Energy Consumers Coalition (VECC) for late intervention in Enersource Hydro Mississauga Inc.'s (Enersource) 2016 electricity distribution rate application. The OEB has also received Enersource's response to your request, dated November 30, 2015, in which Enersource does not object to VECC's intervention but does question the added value.

The OEB is prepared to grant intervenor status to VECC on the condition that they accept the record of the proceeding as it currently stands. The OEB has also determined that VECC is eligible to apply for an award of costs under the OEB's *Practice Direction on Cost Awards* in relation to Enersource's requests for an Incremental Capital Module and Renewable Energy Generation funding.

Yours truly,
