Thanks Sandra – staff will make those changes to the presentation of the tariff at the time of the draft Decision. Thunder Bay Hydro will have a chance to comment to indicate any further modifications.

Thanks for all your help,  
Georgette

Hello Georgette, staff updates to the model have been confirmed as fine. Thank you.

Please note the presentation on the Proposed Tariff of Rates and Charges do require modifications in several instances:

- 1) EB file number incorrectly references last year IRM file submission - the correct reference is EB-2015-0103 on all pages.
- 2) All Rate classes (exception for Sentinel and Microfit) require the statement "Applicable only for Non-RPP Customers" onto the Global Adjustment Rate Rider.

In addition, General Service 1,000 to 4,999 KW Service Classification requires further clarification as follows "Applicable only for Non-RPP Customers, excluding Class A customers".

- 3) Sentinel Service Classification, where in the first paragraph, "detailsare" should reflect "details are".
