Dear Ms. Walli:

Re: EB-2015-0120: Union Gas Limited (Union) Sudbury Expansion Project.

Industrial Gas Users Association (IGUA) Request for Notification of Further Correspondence and Filings.

We write further to Mr. W. T. Wachsmuth's December 4, 2015 letter in response to our correspondence dated December 1, 2015.

Although Mr. Wachsmuth's letter does not mention it, Union's third change request was for a delay in the construction of the pipeline to Victoria Mine, as described in Union's November 17, 2015 application and in Ms. Pascale Duguay's November 25, 2015 decision. In neither of these communications was it clear that the delay captured by Union's third change request would not affect the expansion of the pipeline serving Sudbury or the increased capacity thereby made available in the Sudbury area for this coming winter. Mr. Wachsmuth's letter has now clarified that, which is helpful for IGUA. Had we been notified of Union's change requests when they were filed, we could have satisfied ourselves of the foregoing in advance of the Board's determinations.

As articulated in our December 1, 2015 letter, IGUA is not objecting to the substance of Union's requests at this time. Rather, we wrote out of concern that we were not informed at all that Union had made change requests. As an intervenor of record, IGUA is entitled to notice of Union's filings in this matter.

We note and appreciate that Mr. Wachsmuth's December 4, 2015 letter is properly copied to all intervenors. As Union has thus demonstrated, providing notice to intervenors of Union's filings with the OEB is easily accomplishable.

Sincerely,

GOWLING LAFLEUR HENDERSON LLP

Cindy Kou
