Attention: Ms. K. Walli, Board Secretary

Dear Ms. Walli:

Re: City of Toronto - Section 80 Notice of Proposal re Electricity Generation Facilities

As an affiliate of Toronto Hydro-Electric System Limited (distribution licence # ED-2002-0497), the City of Toronto ("the City" or "CoT") hereby encloses a notice to the Ontario Energy Board (the "OEB" or the "Board") under Section 80 of the *Ontario Energy Board Act, 1998* (the "Act") for generation facilities set out in **Schedule 'A'**, which are the subject of this notice. **Schedule 'B'** contains a list of existing generation facilities that are both wholly and jointly-owned by the City and other parties (for which notice has already been provided).

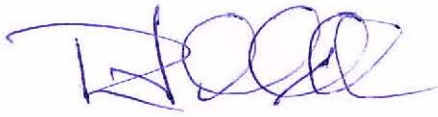

All of the generation facilities that are the subject of this notice are small solar PV facilities with nameplate capacities of 10 kW or less under the Independent Electricity System Operator's ("IESO") microFIT program. The solar PV facilities are expected to be connected to the THESL distribution system sometime in Q4 2015.

The City respectfully submits that a review of the section 80 notices for these PV facilities is not necessary. Each of the generation facilities has been awarded a contract by the OPA (now the IESO) that has conducted a thorough review of the proposed projects including their ability to connect to the distribution system.

In the event, however, that the Ontario Energy Board does proceed to review the projects pursuant to its authority under section 82(a) of the Act, the City submits that the impact of the proposal would not adversely affect the development and maintenance of a competitive market in that the output capacity and energy production of the proposed projects represent only a small fraction of the overall annual energy supply in Ontario.

Enclosed as **Schedule 'C'** is a completed "Preliminary Filing Requirements for a Notice of Proposal Under Sections 80 and 81 of the *Ontario Energy Board Act, 1998*" form, which applies in respect of all of the generation facilities.

Yours truly,

A handwritten signature in blue ink, appearing to read 'Rob Maxwell', with a stylized, cursive script.

Rob Maxwell
Manager, Toronto Renewable Energy Office
