ONTARIO ENERGY BOARD

EB-2015-0376

Dear Ms. Walli:

**London Street Power Corporation.
Electricity Generator License Application
10 MW Hydro Electric Generation Project**

Please find enclosed two copies of an application for an electricity generation license that would enable the Applicant, London Street Power Corporation, a wholly owned subsidiary of Peterborough Utilities Inc. ("PUI"), to generate electricity from the London Street Generating Stations. The London Street Generating Stations comprise two adjacent hydropower facilities located on the same property: (i) the existing 4 MW facility ("Existing Facility"); and (ii) a new 6 MW facility currently under construction ("Expansion Facility").

On April 1st, 2014 PUI executed a First Amending Agreement to HCI Contract No. HCI-0001 with the Ontario Power Authority to expand the generation capacity of the London Street Generating Station from 4 MW to a total nameplate capacity of 10 MW through the construction of new 6 MW facility. In conjunction with this undertaking, PUI is proposing to restructure the ownership of these generating assets under its newly formed, wholly owned subsidiary, LSPC.

Accordingly, concurrent with issuance of a new electricity generation license to LSPC, the following will occur:

1. PUI will undertake, with the approval of the Independent Electricity System Operator, assignment and novation of HCI Contract #HCI-0001 (as amended) from PUI to LSPC;
2. PUI will transfer ownership of the Existing Facility and all of its interests in the LSGS Expansion Facility to London Street Power Corporation;

3. PUI, through this application is also requesting an amendment of its existing Electricity Generation License EG-2003-0110 to remove ownership of the Existing London Street Generating Station Facility.

Lastly, London Street Power Corporation is an affiliate of a distributor, Peterborough Distribution Inc. The Applicant is concurrently providing notice of its intent to acquire an interest in generation under Section 80 of the Ontario Energy Board Act.

Please do not hesitate to contact the undersigned should you have any questions or concerns.

Yours very truly,

John B. Wynsma, P. Eng.
Vice President Generation & Retail Services
Telephone (705) 748-9301 ext 1248
Fax (705) 743-5988
E-mail jwynsma@pui.ca

Application for an Electricity Generation Licence

Application Instructions

1. Purpose of this Form

This form is to be used to apply for a licence that would enable the applicant to generate electricity or provide ancillary services for sale through the Independent Electricity System Operator ("IESO") administered markets or directly to another person. Standard Offer Program generators should use the licence application form specified for Standard Offer Program generators, which can be found on the Board's website at www.ontarioenergyboard.ca.

2. Completion Instructions

This form is in a writeable PDF format. The applicant must either:

- type answers to all questions, print two copies and sign both copies; or
- print a copy of the form, clearly print answers to all questions, make a copy and sign both copies.

Please send both copies of the completed form and two copies of any attachments to:

Board Secretary
Ontario Energy Board
P.O Box 2319
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

If you have any questions regarding the completion of this application, please contact the Market Operations Hotline by telephone at 416-440-7604 or 1-888-632-6273 or e-mail at market.operations@ontarioenergyboard.ca.

Please note that the Board may require information that is additional or supplementary to the information filed in this application form and that filing of the form does not preclude the applicant from filing additional or supplementary information.

The Board's "Performance Standards for Processing Applications" are indicated on the "Corporate Information and Reports" section of the Board's website at www.ontarioenergyboard.ca. Applicants are encouraged to consider the timelines required to process applications to avoid submitting applications too early or too late. Submitting applications too early without reasonable certainty of the proposed licensed activities will impede regulatory efficiency while submitting applications too late will leave the applicant to bear the risk of delayed commencement of licensed activities. If the submitted application is incomplete, it may be returned by the Board or there may be a delay in processing the application.

3. Application and Registration Fees

A non-refundable application fee is required to process your application. Please enclose a cheque or money order made payable to the ONTARIO ENERGY BOARD. The amount of the application fee is indicated on the "Apply for a Licence" page of the "Licences" section of the Board's website at www.ontarioenergyboard.ca.

If a licence is issued, the licensee may be required to pay an annual registration fee. The annual registration fee criteria can be found on the "Apply for a Licence" page of the "Licences" section of the Board's website at www.ontarioenergyboard.ca.

4. Confidentiality

Sections 11 to 15 of this application will be treated as confidential. All other information filed as part of or in support of this application will be placed on the public record. Where the applicant objects to public disclosure of information contained in sections other than sections 11 to 15, the applicant must follow the procedure set out in the Board's Practice Direction on Confidential Filings.

5. Important Information

Applicants must make a copy of the non-confidential sections of the application available to any person who requests a copy of the application.

A licensee may be subject to additional obligations as established under section 70 of the *Ontario Energy Board Act, 1998* and as required by a distributor, transmitter or the IESO. The issuance of an electricity generation licence does not guarantee accreditation by the IESO or connection to a transmission or distribution system.

ONTARIO ENERGY BOARD

Application for an Electricity Generation Licence

For Office Use Only	
Application Number	EB-2015-0376
Date Received	Dec. 22/15

1. The Applicant

Legal Name of the Applicant : London Street Power Corporation

Name to Appear on Licence: London Street Power Corporation

Indicate if same as above

If not the same as above, the name must include the legal name of the applicant and the legal name must appear first. The "Name to Appear on Licence" will appear on the notice and on the licence.

Date of formation or incorporation: May 11, 2012

2. Licence Primary Contact

(As a condition of licence, the licensee shall designate a person who will act as primary contact with the Board on matters related to the licence.)

Mr. <input checked="" type="radio"/>	Mrs. <input type="radio"/>	Last Name	First Name	Initial
Miss <input type="radio"/>	Ms. <input type="radio"/>	Wynsma	John	B
Other <input type="radio"/>		Title/Position/Company		
		President		
Licence Primary Contact Address (if RR, give Lot, Concession No. and Township):				
1867 Ashburnham Drive, PO Box 4125, Station Main				
City	Province/State	Country	Postal/Zip Code	
Peterborough	Ontario	Canada	K9J 6Z5	
Phone Number	Fax Number	E-mail Address		
(705) 748-9301	(705) 743-5988	jwynsma@pui.ca		

3. Application Primary Contact

Indicate if same as above. Proceed to section 4.

(The primary contact for the licence application may be a person within the applicant's organization other than the licence primary contact noted above. An applicant may also choose to designate a consultant, lawyer, etc. to be the primary contact for the licence application. The Board will communicate with this person during the course of the application but with the licence primary contact after a licence is issued.)

Mr. <input checked="" type="radio"/> Mrs. <input type="radio"/> Miss <input type="radio"/> Ms. <input type="radio"/> Other <input type="radio"/> _____	Last Name	First Name	Initial

4. Application Type

- New
 Renewal

5. Applicant's Licensing Status and History

(a) Has the applicant, an affiliate of the applicant, or an associated entity (e.g., a partnership or limited partnership), ever been licensed by the Ontario Energy Board? (The *Business Corporations Act* definition for affiliate can be found at www.e-laws.gov.on.ca/html/statutes/english/elaws_statutes_90b16_e.htm.)

- Yes, provide details of current and expired licences in the table below
 No, proceed to section 5(b)

Licensee Name	Licence Number
Refer to Additional Page, Schedule A - Licensing Status and History	

(b) Has the applicant, an affiliate of the applicant or an associated entity (e.g., a partnership or limited partnership) ever participated in the electricity sector in another jurisdiction within North America?

Yes, provide details of current and expired licences in the table below.

No

Licensee Name	Jurisdiction	Business Activity

6. Key Individuals

The individuals listed as key individuals must be the individuals that are responsible for executing the following functions for the applicant: matters related to regulatory requirements and conduct, financial matters, and technical matters. These key individuals may include the Chief Executive Officer, the Chief Financial Officer, other officers, directors, or proprietors. Identify at least two key individuals. (If the applicant has only one key individual in the organization, identify the one key individual.)

Name of Key Individual	Title/Position within Applicant's Business (or identify company if not the Applicant's Business)
John Wynsma	President
Byron Thompson	Secretary

7. Intended Markets and Services

Does the applicant intend to sell electricity or ancillary services into the IESO administered market? [Ancillary services are defined as services necessary to maintain the reliability of the IESO-controlled grid, including frequency control, voltage control, reactive power, and operating reserve services.]

Yes

No

Does the applicant intend to settle with a distributor for the electricity injected into the distribution system in accordance with the retail settlement system?

Yes, please identify the distribution company Peterborough Distribution Inc.

No

Does the applicant intend to sell electricity to another person?

Yes

No

If yes, is this person a consumer (i.e., a person who uses, for the person's own consumption, electricity that the person did not generate?)

Yes (The applicant may require a retailer licence. The application form can be found at www.ontarioenergyboard.ca.)

No

8. Facility Description

Are you applying to be licensed for more than one facility? (Note that a facility may have more than one unit.)

- Yes, please make a copy of sections 8, 9 and 10 for each facility and provide information for each facility.
 No

Generation Type

- Diesel Natural Gas Water Wind
 Other, please specify _____

Installed Capacity 10 MW

Number of Units 00005

Is the facility dispatchable? Yes No

If you are selling ancillary services, please describe: N/A

Facility Name and Address London Street Generation Station

51 London Street Peterborough Ontario

Licence Responsibility/Qualification Sought

- Owner and Operator
 Owner Only (Please identify operator London Street Power Corporation)
 Operator Only (Please identify owner _____)

If you are applying for only one of the two qualifications, please provide information on the status of the other qualification. The information should include confirmation as to whether or not the person or entity seeking the other qualification is licensed and if not, indicate when an application for the other qualification will be filed with the Board.

9. Facility History and Status

Is the facility in commercial service?

- Yes, proceed to section 9(a)
 No, proceed to section 9(b)

(a) Existing Facility

When did this facility achieve commercial operation? circa 1921

Are you the original owner and operator?

- Yes
 No, identify previous owner and operator: Peterborough Utilities Inc.

(b) New Facility

Has facility construction commenced?

Yes

No

What is the expected in service date? April 2016

Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please identify the status of each approval. (Note: Your response may be continued on additional pages.)

Refer to Additional Page, Schedule F - List of Permits and Approvals

10. Connection

What is the voltage at the perimeter of the applicant's property from the output of the generation facility?

50 kV or less, proceed to section 10(a)

greater than 50 kV, proceed to section 10(b)

(a) The *Ontario Energy Board Act, 1998* defines a distribution system as a system for distributing electricity, and includes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity, means to convey electricity at voltages of 50 kV or less.

Describe the existing or future distribution equipment from the output of the generation facility to the connection point with the Local Distribution Company or to the connection point with the transmission system (e.g., length of line, transformers, etc.).

(Note: Your response may be continued on additional pages.)

Refer to Additional Page, Schedule G - Connection Details

Does (or will) the applicant own and/or operate the distribution equipment?

Yes

No, identify the owner and/or operator of the distribution equipment Peterborough Distribution Inc.

If yes, does the applicant own and/or operate the distribution equipment only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

Yes

No, describe the purpose of the distribution equipment _____

If the answer to the question above is no, the applicant may require a distribution licence. Please contact the Market Operations Hotline for further information.

Does (or will) the distribution equipment connect the generation facility to the Local Distribution Company?

- Yes, identify the Local Distribution Company Peterborough Distribution Inc. and proceed to section 10(c)
- No, proceed to section 10(b)

(b) The *Ontario Energy Board Act, 1998* defines a transmission system as a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose. "Transmit", with respect to electricity, means to convey electricity at voltages of more than 50 kV.

Describe the existing or future transmission equipment from the output of the generation facility or applicant's distribution equipment to the connection point with the transmission network (e.g., length of line, transformers, etc.).

(Note: Your response may be continued on additional pages.)

Does (or will) the applicant own and/or operate the transmission equipment?

- Yes
- No, identify the owner and/or operator of the transmission equipment N/A

If yes, does the applicant own and/or operate the transmission equipment only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

- Yes
- No, describe the purpose of the transmission equipment _____

If the answer to the question above is no, the applicant may require a transmission licence. Please contact the Market Operations Hotline for further information.

(c) Is the applicant a licensed distributor or transmitter, or an affiliate of a licensed distributor or transmitter?

- Yes, the applicant may be required to give notice to the Board under section 80 of the Act regarding the acquisition of generation facilities by transmitters or distributors. The filing requirements for a notice under section 80 of the Act are found at www.ontarioenergyboard.ca.
- No, the applicant may be required to give notice to the Board under section 81 of the Act regarding the acquisition of transmission or distribution assets by generators. The filing requirements for a notice under section 81 of the Act are found at www.ontarioenergyboard.ca.

(d) Does the applicant intend to obtain from the Ontario Energy Board an order granting leave to construct an electricity transmission line under section 92 of the *Ontario Energy Board Act, 1998*?

- Yes
- No
