**The Participation of Society of Energy Professionals As An Intervenor in OEB Proceedings**

Dear Ms. Walli,

Since the spring of 2014, The Society has participated as an intervenor in assorted proceedings involving its employers (e.g., both Hydro One Distribution and Transmission, Ontario Power Generation Inc., Toronto Hydro) as well as OEB initiated generic proceedings (e.g., EB-2015-0040 Consultation on the Regulatory Treatment of Pensions and Other Post-Employment Benefit Costs).

To ensure that The Society is kept informed on a timely basis, we would ask that the OEB include The Society in the distribution list for any memoranda initiating a generic proceeding, such as EB-2016-0003 "Regional Planning and Cost Allocation Review". In proceedings where the applicant is a Society employer, The Society would also request that the OEB in its Letter of Direction include The Society in the list of intervenors which it directs these applicants to serve a copy of the Notice to. Potential applicants who are Society employers include Hydro One Distribution, Hydro One Transmission, the Independent Electricity System Operator, Ontario Power Generation, and Toronto Hydro. Please be informed that both Bruce Power and the OEB are employers of Society-represented staff. As we do not foresee these two entities being applicants in an OEB proceeding, we have not included them in the above list.

Thank you.
