Ms. Pascale Duguay
Ontario Energy Board
P.O. Box 2319
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

Dear Ms. Duguay:

**Re: Enbridge Gas Distribution Inc. ("Enbridge")
Ontario Energy Board ("Board") Docket No. EB-2012-0451
GTA Project**

Enbridge would like to inform the Board that Segment B of the GTA Project was energized with natural gas on January 20, 2016. This pipe will be operating at restricted flow until such time as it is fully conditioned with odorant, which is expected to take several weeks for a pipe of this size and length.

When the construction of Segment A is finished, Enbridge will confirm the completion of construction of both Segments A and B per Condition of Approval 2.6.

Yours truly,

[original signed]

Brian Wikant
Project Director, GTA Project
