DELIVERED BY EMAIL AND RESS

Board Secretary
Ontario Energy Board
P.O. Box 2319
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4P

Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

Subject: Natural Gas Market Review 2015 (EB-2015-0237) – Letter of Correction

Northeast Midstream LP participated in the Natural Gas Market Review (EB-2015-0237) on January 21, 2016, where I delivered a presentation entitled “Expanding Natural Gas Service in Ontario Using Liquefied Natural Gas (LNG).”

On Page 2 of the presentation, there is a chart illustrating the marginal cost of Dawn to Parkway expansion projects from 2014 to 2017.

As a result of an error in calculation, the chart overstates the marginal costs of the Dawn to Parkway expansion by a significant amount.

After adjusting for the error, the marginal cost of the Dawn to Parkway expansion is less than the cost of LNG in all cases. The revised chart is attached.

Northeast apologizes for this error and for any inconvenience or misunderstanding caused by the misstated values.

Such an error, however, does not invalidate the policy issue that Northeast is asking the Board to address. That is, natural gas distributors should be required to present a comprehensive and transparent long-term economic comparison of the alternative approaches to gas supply as part of a system expansion or community expansion application.

Yours truly,

Joshua Samuel
