Enquiry:

As this application is filed in relation to service expansion to rural and remote areas of Ontario. How are the potential future consumers of this service in these areas being notified other than publication in large urban papers ie. Toronto Sun February 7/2016 . I would think the OEB would find it imperative this application be circulated to rural Ont. for the collection of input from those who may have interest in the investment of these opportunities. Thank-you Deputy Mayor Adjala/Tosorontio Doug Little
