

February 22, 2016

Ontario Energy Board
P.O. Box 2319
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

Attention: Ms. Walli, Board Secretary

Dear Ms. Walli:

Re. Request for Intervener Status – Application EB-2016-0004

I am writing on behalf of GreenField Specialty Alcohols Inc. (“GFSA”) to request that the Board grant GFSA intervener status in the above captioned generic proceeding. My contact information is provided below.

GFSA is an Ontario-based company involved in the production of speciality alcohols, fuel ethanol and related products and is a significant energy consumer in the province. One of the production facilities it owns and operates is an industrial alcohol plant located within the Bruce Energy Centre at Tiverton, Ontario. Tiverton is one of the 34 communities included in OEB application EB-2015-0179 submitted by Union Gas.

Accordingly, GFSA has a direct and specific interest in the outcome of that application and the broader issues being considered by the Board in OEB application EB-2016-004.

GFSA is generally supportive of efforts to construct natural gas supply infrastructure to those Ontario communities which presently have no natural gas supply. GFSA also recognizes that for such projects to be economically viable, some form of subsidization will likely be required in order to establish a competitive natural gas delivery tariff structure for prospective residential and industrial customers. The Draft List of Issues provided in the Board’s Procedural Order No.1 dated February 10, 2016 are of specific interest to GFSA. At the present time, GFSA does not expect to be filing comments or evidence in EB-2016-004 but would like to reserve the right do so in accordance with the Board’s procedural order. In the context of the foregoing, GFSA therefore respectfully requests intervenor status in EB-2016-004.

Very Truly Yours,
GreenField Specialty Alcohols Inc.
