## LETTER OF COMMENT

### Comments:

As the subject notice of application applies to the Township of Georgian Bay and it's communities, we are concerned that existing customers (if any) will bear the substantial infrastructure costs of service expansion. Recognizing that expansion of natural gas may occur throughout the municipality in the future, there also needs to be a healthy balance of a user pay concept.

Please ensure that public consultation is at the forefront prior to any substantial increases and that transparency is a principal commitment that the OEB is prepared to follow through with.

Thanks.
