VIA COURIER AND RESS

Ms. Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, Ontario
M4P 1E4

Dear Ms. Walli:

Re: Application for Electricity Generation Licence

Please find enclosed an application for an Electricity Generation Licence for the PSS Generating Station Limited Partnership (the "Partnership") as required under sections 57(c), 57(f), and 60 of the *Ontario Energy Board Act, 1998*.

The Partnership was formed between Ontario Power Generation Inc. ("OPG"), PSS Generating Station Inc. and Coral Rapids Power Corporation ("CRP") – a corporation that is wholly owned by the Taykwa Tagamou Nation – to undertake the development, construction, ownership and operation of Peter Sutherland Senior Generating Station. Subject to the limited partnership agreement for the Partnership, the general partners of the Partnership are OPG and PSS Generating Station Inc. and the limited partner is CRP. The Partnership is seeking a licence to generate and sell electricity and ancillary services as the owner and operator of the 2-unit, 28-MW Peter Sutherland Senior Generating Station.

Application Organization

The application enclosed herein includes two hardcopies of the completed OEB Application for Electricity Generation Licence form, two hard copies of all attachments as set out below, along with a check for the application fee.

- Attachment 1) Applicant's Licencing Status and History;
- Attachment 2) List and Status of all Other Regulatory Approvals Required;
- Attachment 3a) Description of Future Transmission System from Output of the Facility to the Connection Point with the Transmission Network;
- Attachment 3b) Peter Sutherland Senior Generating Station Substation, Transmission Line and Switchyard Relay and Metering Schematic Main 1- Line Diagram;
- Attachment 4a) Applicant's Corporate Organizational Chart;
- Attachment 4b) Description of Business Activities and Corporate Organization;

- Attachment 4c) Minister's June 2013 Directive to the Ontario Power Authority ("OPA") regarding the Hydroelectric Energy Supply Agreement;
- Attachment 4d) Minister's April 2014 Letter to the OPA reaffirming the Government's Support of the HESA;
- Attachment 5) Letter of Reference from the Bank of Nova Scotia;
- Attachment 6a) Proof of Executed HESA (some non-confidential sections of the HESA, including cover page, table of contents, recitals and signatures);
- Attachment 6b) Certificate of Insurance for the Partnership;
- Attachment 6c) DBRS Credit Rating Report for the Partnership;
- Attachment 7) PSS Generating Station Bond Description in Bloomberg;
- Attachment 8) Legal and Regulatory Proceedings; and,
- Attachment 9) Key Individuals Biographies.

OPG asks that the OEB treats Attachments 4 to 9 (inclusive) as confidential as they are being filed in support of the confidential sections of the application.

Notwithstanding the expected May 2017 commercial in-service date described in the application, synchronized testing may begin as early as first quarter 2017. The application is being submitted to provide the OEB with sufficient time to process the application in advance of the synchronized testing and to facilitate a potential early project execution.

The Partnership asks that the OEB disposes of this proceeding without a hearing, in accordance with section 21(4) (b) of the *Ontario Energy Board Act, 1998*. The Partnership submits that this Electricity Generation Licence will not materially impact any other party.

Please direct any comments or questions during the application assessment process to the Applicant Primary Contact as set out in the application form.

Best Regards,

David Ramkalawan, P.Eng.
Senior Manager, Reliability Compliance
Ontario Power Generation Inc.
