Re: Independent Electricity System Operator - 2016 Revenue Requirement & Fees
AMPCO Intervention Request
Board File No. EB-2015-0275

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO's interest in the Board's regulation of the electricity sector relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to customers and Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the Board in numerous OPA and IESO proceedings and was an intervenor in the most recent revenue requirement applications of the IESO and the OPA, EB-2013-0381 and EB-2013-0326, respectively.

The Independent Electricity System Operator's application seeks approval of its revenue requirement, expenditures and fees. This application is the first application of the recently merged IESO/OPA entities. AMPCO's interest in the application relates to the new corporate structure, cost savings and the determination of fees.

We respectfully request that the Board please confirm AMP CO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings.
