SCHED	JLE A	
SCHED	JLE B	

1 INTRODUCTION AND SUMMARY

This is a Decision of the Ontario Energy Board (OEB) on an application by Entegrus Powerlines Inc. (Entegrus) for permission to charge certain distribution rates to its customers to be effective May 1, 2016.

Entegrus is an electricity distributor that serves approximately 40,000 customers in 16 communities in southwestern Ontario, chiefly in the municipality of Chatham-Kent. Entegrus filed an application with the OEB to change the rates that it charges to its customers, and to harmonize rates across its service territory. Entegrus' territory has expanded since 2005 with the acquisition of a number of smaller utilities.

The OEB's process for this application included an opportunity for the parties participating in the proceeding to come to an agreement on the issues. The parties were able to agree on all the issues in the application. In early February, Entegrus filed a settlement proposal with the OEB reflecting the agreement it had reached with the parties.

The OEB has reviewed and accepts the settlement proposal and approves the rates that arise from it. Entegrus' new rates will be effective May 1, 2016. The bill impact arising from this Decision and Rate Order for a typical residential customer in the Chatham-Kent service area consuming 800 kWh in a month is a decrease of \$1.80 per month. Similar customers in the newly harmonized zones will experience decreases in monthly bills ranging from \$5.41 to \$7.85.

2 THE PROCESS

Entegrus filed its application with the OEB on August 28, 2015. Energy Probe Research Foundation, the Vulnerable Energy Consumers Coalition, and the School Energy Coalition were granted intervenor status.

Prior to formal procedural steps in the application, the OEB held a community meeting in Chatham to provide customers an opportunity to ask questions and provide feedback on Entegrus' application. Staff from the OEB and Entegrus attended this meeting. OEB staff filed a summary of the comments provided on the public record.

Entegrus also presented an overview of its application to the OEB, OEB staff and intervenors. This was followed by an interrogatory process and a settlement conference, during which intervenors and the applicant reached an agreement on the appropriate rates for the upcoming year. Entegrus proposed this settlement in a written filing to the OEB on February 3, 2016. OEB staff filed a submission on the settlement proposal a week later.

3 DECISION ON THE ISSUES

This Decision and Rate Order determines Entegrus' rates effective May 1, 2016.

3.1 Settlement Proposal

The intervenors and Entegrus (the parties) met on January 12 and 13, 2016, to determine if they could agree on the appropriate revenue requirement and rates for Entegrus in 2016. The parties were able to settle all issues.

The parties filed a settlement proposal on February 3, 2016 (see Schedule B to this Decision and Rate Order).

OEB staff filed a submission in support of the settlement proposal. OEB staff submitted that the approval of the settlement proposal would result in outcomes that reflect the public interest and result in just and reasonable rates for customers.

OEB staff noted, however, that the issue of gross load billing of transmission charges at the distribution level has not been addressed by the OEB, which might indicate that a conditional approval is appropriate.

Findings

The OEB agrees with the parties and OEB staff that the settlement proposal will result in just and reasonable rates and accepts it. The OEB approves the rates that result. The OEB does not find it necessary to add any conditions to its approval.

4 ORDER

THE BOARD ORDERS THAT:

- The Tariff of Rates and Charges for Entegrus set out in Schedule A of this Decision and Order is approved on a final basis, effective May 1, 2016 for electricity consumed or estimated to have been consumed on and after May 1, 2016. Entegrus shall notify its customers of the rate changes no later than with the first bill reflecting the new rates.
- 2. Intervenors shall submit their cost claims no later than 7 days from the date of issuance of this Decision and Rate Order.
- 3. Entegrus Powerlines Inc. shall file with the OEB and forward to intervenors any objections to the claimed costs within 17 days from the date of issuance of this Decision and Rate Order.
- 4. Intervenors shall file with the OEB and forward to Entegrus Powerlines Inc. any responses to any objections for cost claims within 24 days from the date of issuance of this Decision and Rate Order.
- 5. Entegrus Powerlines Inc. shall pay the OEB's costs incidental to this proceeding upon receipt of the OEB's invoice.

All filings to the Board must quote the file number, EB-2015-0061, be made through the Board's web portal at <u>https://www.pes.ontarioenergyboard.ca/eservice/</u>, and consist of two paper copies and one electronic copy in searchable / unrestricted PDF format. Filings must clearly state the sender's name, postal address and telephone number, fax number and e-mail address. Parties must use the document naming conventions and document submission standards outlined in the RESS Document Guideline found at <u>http://www.ontarioenergyboard.ca/OEB/Industry</u>. If the web portal is not available parties may email their documents to the address below. Those who do not have internet access are required to submit all filings on a CD in PDF format, along with two paper copies. Those who do not have computer access are required to file 7 paper copies.

All communications should be directed to the attention of the Board Secretary at the address below, and be received no later than 4:45 p.m. on the required date.

With respect to distribution lists for all electronic correspondence and materials related to this proceeding, parties must include the Case Manager, Stephen Vetsis at <u>stephen.vetsis@ontarioenergyboard.ca</u> and Board Counsel, Maureen Helt at <u>maureen.helt@ontarioenergyboard.ca</u>.

ONTARIO ENERGY BOARD

Original Signed By

Kirsten Walli Board Secretary SCHEDULE A DECISION AND ORDER ENTEGRUS POWERLINES INC. EB-2015-0061

MARCH 17, 2016

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2015-0061

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less and includes:

- 1) All services supplied to single-family dwelling units for domestic or household purposes,
- 2) All multi-unit residential establishments such as apartments of 6 or less units.
- 3) If a service supplies a combination of residential and commercial load and wiring does not permit separate metering, the classification of this customer will be determined individually by the distributor.

Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

EB-2015-0061

ONTARIO ELECTRICITY SUPPORT PROGRAM RECIPIENTS

In addition to the charges specified on page 1 of this tariff of rates and charges, the following credits are to be applied to eligible residential customers.

APPLICATION

The application of the credits is in accordance with the Distribution System Code (Section 9) and subsection 79.2 of the Ontario Energy Board Act, 1998.

The application of these credits shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

In this class:

"Aboriginal person" includes a person who is a First Nations person, a Métis person or an Inuit person;

"account-holder" means a consumer who has an account with a distributor that falls within a residential-rate classification as specified in a rate order made by the Ontario Energy Board under section 78 of the Act, and who lives at the service address to which the account relates for at least six months in a year;

"electricity-intensive medical device" means an oxygen concentrator, a mechanical ventilator, or such other device as may be specified by the Ontario Energy Board;

"household" means the account-holder and any other people living at the accountholder's service address for at least six months in a year, including people other than the account-holder's spouse, children or other relatives;

"household income" means the combined annual after-tax income of all members of a household aged 16 or over;

MONTHLY RATES AND CHARGES

Class A

(a) account-holders with a household income of \$28,000 or less living in a household of one or two persons;
(b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of three persons;
(c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of five persons;
(d) account-holders with a household income of between \$48,001 and \$52,000 living in a household of seven or more persons;
(d) account-holders with a household income of between \$48,001 and \$52,000 living in a household of seven or more persons;
but does not include account-holders in Class E.
OESP Credit
(a) account-holders with a household income of \$28,000 or less living in a household of three persons;
(b) account-holders with a household income of \$28,000 or less living in a household of three persons;
(c) account-holders with a household income of \$28,000 or less living in a household of three persons;

(b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of four persons; (c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of six persons; but does not include account-holders in Class F.

OESP Credit \$ (34.00) Class C

(a) account-holders with a household income of \$28,000 or less living in a household of four persons;

(b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of five persons;

(c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of seven or more persons; but does not include account-holders in Class G.

OESP Credit \$ (38.00)

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification applies to a non-residential account taking electricity at 750 volts or less whose average monthly maximum gross demand over a period of 12 consecutive months is less than, or is forecast to be less than, 50 kW and includes multi-unit residential establishments such as apartment buildings supplied through one service (bulk-metered) with greater than 6 units. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/ documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

SENTINEL LIGHTING SERVICE CLASSIFICATION

This classification refers to accounts that are an unmetered lighting load supplied to a sentinel light. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

EB-2015-0061

NOTES

1) The Billing Demand for Line and Transformation Connection Services and Low Voltage Services is defined as the Non-Coincident Peak demand (MW) in any hour of the month. The customer demand in any hour is the sum of (a) the loss-adjusted demand supplied from the distribution system plus (b) the demand that is supplied by embedded generation installed after October 1998, which have installed capacity of 2MW or more for renewable generation and 1 MW or higher for non-renewable generation. The term renewable generation refers to a facility that generates electricity from the following sources: wind, solar, Biomass, Bio-oil, Bio-gas, landfill gas, or water. The demand supplied by embedded generation will not be adjusted for losses.

EB-2015-0061 Filed: February 3, 2016 Settlement Proposal Page 4 of 43

SETTLEMENT PROPOSAL

Entegrus Powerlines Inc. (the "Applicant" or "EPI") filed a Cost of Service application with the Ontario Energy Board (the "Board") on August 28, 2015 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B) (the "Act"), seeking approval for changes to the rates that EPI charges for electricity distribution, to be effective May 1, 2016 (Board Docket Number EB-2015-0061) (the "Application").

The Board issued a Letter of Direction and Notice of Application on September 28, 2015. In Procedural Order No. 1, dated October 23, 2015, the Board sought the provision of written interrogatories and outlined the timetable of the various elements in the proceeding.

Following the receipt of interrogatories, EPI filed its interrogatory responses with the Board on December 18, 2015 and filed responses to clarification questions with the Board on January 11, 2016.

On January 7, 2016, following interrogatories and the issuance of clarification questions, OEB staff submitted a proposed issues list as agreed to by the parties. On January 11, 2016 the Board issued its decision on the proposed issues list, approving the list submitted by OEB staff as the final issues list (the "Issues List"), and confirmed that a settlement conference would occur in accordance with Procedural Order No. 1.

The settlement conference was convened on January 12, 2016 and continued to January 13, 2016 in accordance with the Board's *Rules of Practice and Procedure* (the "Rules") and the Board's Practice Direction on Settlement Conferences (the "Practice Direction"). Ms. Tracey Ehl acted as facilitator for the settlement conference which was held for a day and a half.

EPI and the following intervenors (the "Intervenors"), participated in the settlement conference:

- Energy Probe Research Foundation ("EP");
- School Energy Coalition ("SEC"); and
- Vulnerable Energy Consumers Coalition ("VECC").

EPI and the Intervenors are collectively referred to below as the "Parties". Ontario Energy Board staff ("OEB staff") also participated in the settlement conference. The role adopted by OEB staff is set out in page 5 of the Practice Direction. Although OEB staff is not a party to this Settlement Proposal, as noted in the Practice Direction, OEB staff who did participate in the settlement conference are bound by the same confidentiality and privilege rules that apply to the Parties to the proceeding.

This document is called a "Settlement Proposal" because it is a proposal by the Parties to the Board to settle the issues in this proceeding. It is termed a proposal as between the Parties and the Board. However, as between the Parties, and subject only to the Board's approval of this Settlement Proposal, this document is intended to be a legal agreement, creating mutual obligations, and binding and enforceable in accordance with its terms. As set forth later in this Preamble, this agreement is subject to a condition subsequent, that if it is not accepted by the Board in its entirety, then unless amended by

EB-2015-0061 Filed: February 3, 2016 Settlement Proposal Page 5 of 43

the Parties it is null and void and of no further effect. In entering into this agreement, the Parties understand and agree that, pursuant to the Act, the Board has exclusive jurisdiction with respect to the interpretation and enforcement of the terms hereof.

These settlement proceedings are subject to the rules relating to privilege contained in the Practice Direction. The Parties acknowledge that this settlement proceeding is confidential in accordance with the Board's Practice Direction on Settlement Conferences. The Parties understand that confidentiality in that context does not have the same meaning as confidentiality in the Board's Practice Direction on Confidential Filings, and the rules of that latter document do not apply. Instead, in this settlement conference, and in this Settlement Proposal, the Parties have interpreted "confidential" to mean that the documents and other information provided during the course of the settlement proceeding, the discussion of each issue, the offers and counter-offers, and the negotiations leading to the settlement or not – of each issue during the settlement conference are strictly privileged and without prejudice. None of the foregoing is admissible as evidence in this proceeding, or otherwise, with one exception, the need to resolve a subsequent dispute over the interpretation of any provision of this Settlement Proposal. Further, the Parties shall not disclose those documents or other information to persons who were not attendees at the settlement conference. However, the Parties agree that "attendees" is deemed to include, in this context, persons who were not physically in attendance at the settlement conference but were a) any persons or entities that the Parties engage to assist them with the settlement conference, and b) any persons or entities from whom they seek instructions with respect to the negotiations; in each case provided that any such persons or entities have agreed to be bound by the same confidentiality provisions.

This Settlement Proposal provides a brief description of each of the settled and partially settled issues, as applicable, together with references to the evidence. The Parties agree that references to the "evidence" in this Settlement Proposal shall, unless the context otherwise requires, include (a) additional information included by the Parties in this Settlement Proposal, and (b) the Appendices to this document. The supporting Parties for each settled and partially settled issue, as applicable, agree that the evidence in respect of that settled or partially settled issue, as applicable, is sufficient in the context of the overall settlement to support the proposed settlement, and the sum of the evidence in this proceeding provides an appropriate evidentiary record to support acceptance by the Board of this Settlement Proposal. The Parties agree that references to the evidence in this Settlement Proposal shall, unless the context otherwise requires, include, in addition to the Application, the responses to interrogatories, technical conference questions and undertakings, and all other components of the record up to and including the date hereof, including additional information included by the Parties in this Settlement Proposal and the Attachments to this document.

There are Attachments to this Settlement Proposal which provide further support for the proposed settlement. The Parties acknowledge that the Attachments were prepared by EPI. While the Intervenors have reviewed the Attachments, the Intervenors are relying on the accuracy of the underlying evidence in entering into this Settlement Proposal.

For ease of reference, this Settlement Proposal follows the format of the final approved Issues List.

The Parties are pleased to advise the Board that the Parties have reached a complete agreement with respect to all of the issues in this proceeding. Specifically:

Description	Number of Issues
	Settled
"Complete Settlement" means an issue for which complete settlement was	All
reached by all Parties, and if this Settlement Proposal is accepted by the	
Board, the Parties will not adduce any evidence or argument during the oral	
hearing in respect of these issues.	
"Partial Settlement" means an issue for which there is partial settlement as EPI	None
and the Intervenors who take any position on the issue were able to agree on	
some but not all, aspects of the particular issue. If this Settlement Proposal is	
accepted by the Board, the Parties who take any position on the issue will only	
adduce evidence and argument during the hearing on those portions of the	
issues not addressed in this Settlement Proposal.	
"No Settlement" means an issue for which not settlement was reached. EPU	None
and the Intervenors who take a position on the issue will adduce evidence	
and/or argument at the hearing on the issue.	

If applicable, a Party who is noted as taking no position on an issue may or may not have participated in the discussion on that particular issue, but in either case such Party takes no position a) on the settlement reached, and b) on the sufficiency of the evidence filed to date.

According to the Practice Direction (p. 3), the Parties must consider whether a Settlement Proposal should include an appropriate adjustment mechanism for any settled issue that may be affected by external factors. These adjustments are specifically set out in the text of the Settlement Proposal.

The Parties have settled the issues as a package, and none of the parts of this Settlement Proposal are severable. If the Board does not accept this Settlement Proposal in its entirety, then there is no settlement (unless the Parties agree in writing that any part(s) of this Settlement Proposal that the Board does accept may continue as a valid settlement without inclusion of any part(s) that the Board does not accept).

In the event that the Board directs the Parties to make reasonable efforts to revise the Settlement Proposal, the Parties agree to use reasonable efforts to discuss any potential revisions, but no Party will be obligated to accept any proposed revision. The Parties agree that all of the Parties who took on a position on a particular issue must agree with any revised Settlement Proposal as it relates to that issue prior to its resubmission to the Board.

Unless stated otherwise, the settlement of any particular issue in this proceeding and the positions of the Parties in this Settlement Proposal are without prejudice to the rights of Parties to raise the same issue and/or to take any position thereon in any other proceeding, whether or not EPI is a party to such proceeding, provided that no Party shall take a position that would result in this Agreement not applying in accordance with the terms contained herein.

Where in this Agreement, the Parties or any of them "accept" the evidence of EPI, or "agree" to a revised term or condition, including a revised budget or forecast, then unless the Agreement expressly states to the contrary, the words "for the purpose of settlement of the issues herein" shall be deemed to qualify that acceptance or agreement.

SUMMARY

In reaching this Settlement Proposal, the Parties have been guided by the Filing Requirements for 2016 rates and the approved Issues List.

This Settlement Proposal reflects a settlement of all of the issues in this proceeding.

EPI has made changes to the Revenue Requirement as reproduced below in Table 1:

	Description	Application	IR Responses	Variance	Settlement	Variance
	Description	(A)	(B)	(C) = (B) - (A)	(D)	(E) = (D) - (B)
Cost of Capital	Regulated Return on Capital	\$5,606,789	\$5,480,095	-\$126,693	\$5,411,431	-\$68,665
Cost of Capital	Regulated Rate of Return	6.48%	6.28%	-0.19%	6.26%	-0.02%
Rate Base & Capital	Rate Base	\$86,556,573	\$87,201,570	\$644,997	\$86,380,208	-\$821,362
Expenditures	Working Capital Base	\$120,651,183	\$129,377,870	\$8,726,687	\$130,441,743	\$1,063,873
experioritures	Working Capital Allowance (\$)	\$9,917,527	\$10,621,923	\$704,396	\$9,783,131	-\$838,792
Operating	Amortization / Depreciation	\$3,849,791	\$3,826,034	-\$23,758	\$3,826,034	\$0
Operating	Taxes/PILs	\$159,910	\$132,639	-\$27,271	\$121,753	-\$10,886
Expenses	OM&A	\$9,495,813	\$9,495,813	\$0	\$9,495,977	\$164
	Service Revenue Requirement	\$19,378,505	\$19,200,783	-\$177,722	\$19,121,396	-\$79,387
Devenue	Other Revenues	\$1,188,521	\$1,188,521	\$0	\$1,261,521	\$73,000
Revenue Requirement	Base Revenue Requirement	\$18,189,984	\$18,012,262	-\$177,722	\$17,859,875	-\$152,387
	Grossed up Revenue Deficiency (positive) / Sufficiency (negative)	\$155,997	-\$135,006	-\$291,003	-\$438,400	-\$303,394

TABLE 1: REVENUE REQUIREMENT

Based on the foregoing, and the evidence and rationale provided below, the Parties agree that this Settlement Proposal is appropriate and recommend its acceptance by the Board.

Please see Attachment A for updated tariff sheets based on the results of this Settlement Proposal which are subject to the Board's acceptance.

Please see Table 2 and Attachment I for updated Bill Impacts based on the results of this Settlement Proposal.

TABLE 2: BILL IMPACT SUMMARY

Line No.	Rate Class	Туре	Typical kWh	Typical kW	2015 Final Rates by Rate Zone	2016 Proposed Rates Combined	\$ Increase (Decrease)	% Increase (Decrease)

1 PLANNING

1.1 Capital

Is the level of planned capital expenditures appropriate and is the rationale for planning and pacing choices appropriate and adequately explained, giving due consideration to:

- customer feedback and preferences;
- productivity;
- benchmarking of costs;
- reliability and service quality;
- impact on distribution rates;
- trade-offs with OM&A spending;
- government-mandated obligations; and
- the objectives of the Applicant and its customers.

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the Capital Expenditures have been correctly determined in accordance with Board policies and practices. Specific adjustments to Capital Expenditures as a result of the IR responses and the Settlement Proposal in the amount of \$34,860 are further described below in Issue 1.1.1 regarding OPEBs.

A summary of Gross Capital Expenditures is presented in Table 3 below.

				,	
Description	Application	IR Responses	Variance	Settlement	Variance
Description	(A)	(B)	(C) = (B) - (A)	(D)	(E) = (D) - (B)
Intangible Plant	\$402,000	\$402,000	\$0	\$402,000	\$0
Distribution Plant	\$6,278,380	\$6,278,380	\$0	\$6,313,240	\$34,860
General Plant	\$1,533,309	\$1,533,309	\$0	\$1,533,309	\$0
Contribution & Grants	-\$375,000	-\$375,000	\$0	-\$375,000	\$0
Total	\$7,838,689	\$7,838,689	\$0	\$7,873,549	\$34,860

 TABLE 3: 2016 GROSS CAPITAL EXPENDITURES (EXCLUDING DISPOSALS)

With the modification noted in Issue 1.1.1, and for the purposes of settlement of all the issues in this proceeding, the Parties accept the evidence of EPI that the level of planned capital expenditures and the rationale for planning and pacing choices are appropriate in order to maintain system reliability, service quality objectives and the reliable and safe operations of the distribution system. The Parties further acknowledge that the planned capital expenditures are adequately explained, giving due consideration to the consistency with EPI's relatively smooth historical capital spending and to:

• EPI customer feedback and preferences (as more fully explained in Exhibit 1: Section 1.5, Attachment 1-G (Board Appendix 2-AC), Attachment 1-H, Attachment 1-I, Attachment 1-J and Attachment 1-K; and Exhibit 2: DSP Section 5.2.2.1, DSP Section 5.2.3.2.1; DSP Section 5.4.1.6;

DSP Section 5.4.1.9, DSP Section 5.4.2.4; DSP Appendix XIII, DSP Appendix XIVA and DSP Appendix XIVB; and IRR 1-VECC-3);

- The past and planned productivity initiatives of EPI (as more fully explained in IRR 1-SEC-4);
- EPI's benchmarking performance (as more fully explained in Exhibit 1: Section 1.4.3, page 47 line 5 thru page 48 line 22); and IRR 1-SEC-3);
- EPI's past reliability and service quality performance as well as EPI's targets for performance in the test year (as more fully explained in Exhibit 1 Section 1.4.3, page 44, line 13 through page 46, line 16; and Exhibit 2: Section 2.6.10, and DSP Section 5.2.3.1.2, DSP Section 5.2.3.2.2, DSP Section 5.4.2.3.1);
- The total impact on distribution rates (as more fully detailed in Attachment I of this Settlement Proposal);
- The agreed to changes in OM&A spending (as described in Issue 1.2 of this Settlement Proposal);
- EPI's past and planned performance meeting government-mandated obligations (as more fully detailed in Exhibit 1: Section 1.4.1 and Section 1.4.3, page 4, lines 13 through page 44 line 4); and
- EPI's targets and the objectives as more fully detailed in Exhibit 1, Section 1.4 and Exhibit 2, Attachment 2-D, Section 5.2.3).

The Parties further agree that the Distribution System Plan filed in this proceeding, combined with the resources made available to EPI in the Test Year under the terms of this Settlement Proposal, provide a foundation to EPI in the Test Year to continue to:

- pursue continuous improvement in productivity;
- maintain system reliability and service quality objectives; and
- maintain reliable and safe operation of its distribution system.

Attachment B of this Settlement Proposal provides updated Appendix 2-AB to reflect this settlement.

1.1.1 OPEBs (Capital Component)

Recognizing the Board intends to address the method for the accounting of OPEBs in rates as part of a generic policy process, EPI agrees to adjust its 2016 Test Year capital expenditures to reflect the recovery of OPEBs on a cash basis, rather than an accrual basis, and the appropriate allocation of OPEBs between capital and OM&A subject to the approval of a new variance account, as described further in the settlement of Issue 4.2.3 below, to record the difference in rates between these two methodologies pending the Board's final determination on the generic policy issue.

Table 4 below presents the adjustments related to capital and OM&A recovery for the change to reflect OPEBs on a cash basis.

TABLE 4: OPEBS ACCOUNTING CHANGE

Description	Cash	Accrual	Adjustment
Description	Basis	Basis	Aujustinent
OM&A	\$150,165	\$100,001	\$50,164
Capital	\$104,352	\$69,492	\$34,860
Total	\$254,517	\$169,493	\$85,024

1.2 OM&A

Is the level of planned OM&A expenditures appropriate and is the rationale for planning choices appropriate and adequately explained, giving due consideration to:

- customer feedback and preferences;
- productivity;
- benchmarking of costs;
- reliability and service quality;
- impact on distribution rates;
- trade-offs with capital spending;
- government-mandated obligations; and
- the objectives of the Applicant and its customers.

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the OM&A expenditures have been correctly determined in accordance with Board policies and practices. Specific adjustments to OM&A expenditures as a result of the IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 1.2.1 OM&A Expenditures
- Issue 1.2.2 OPEBs (OM&A Component)

A summary of the adjusted OM&A expenditures is presented in Table 5 below. For the purpose of presentation, EPI has identified in the table below the revised OM&A budget for the test year, and has indicated reductions of \$25,000 in each of planned Operations and Maintenance expenditures. However, the Parties acknowledge that the ultimate determination of the areas of OM&A in which reductions will be made is in the discretion of EPI.

Description	Application	IR Responses	Variance	Settlement	Variance
Description	(A)	(B)	(C) = (B) - (A)	(D)	(E) = (D) - (B)
Operations	\$1,227,705	\$1,227,705	\$0	\$1,202,705	-\$25,000
Maintenance	\$1,827,735	\$1,827,735	\$0	\$1,802,735	-\$25,000
Billing & Collecting	\$2,476,279	\$2,476,279	\$0	\$2,476,279	\$0
Community Relations	\$237,844	\$237,844	\$0	\$237,844	\$0
Administration and General	\$3,726,251	\$3,726,251	\$0	\$3,776,415	\$50,164
Property Taxes	\$243,162	\$243,162	\$0	\$243,162	\$0
LEAP	\$23,040	\$23,040	\$0	\$23,040	\$0
Total	\$9,762,015	\$9,762,015	\$0	\$9,762,179	\$164

TABLE 5: 2016 TEST YEAR OM&A EXPENDITURES

With the modification noted in Issues 1.2.1 and 1.2.2, and for the purposes of settlement of all the issues in this proceeding, the Parties accept the evidence of EPI that the level of planned OM&A expenditures and the rationale for planning choices are appropriate and adequately explained, giving due consideration to:

- EPI customer feedback and preferences (as more fully explained in Exhibit 1: Section 1.5, Attachment 1-G (Board Appendix 2-AC), Attachment 1-H, Attachment 1-I, Attachment 1-J and Attachment 1-K; and Exhibit 2: DSP Section 5.2.2.1, DSP Section 5.2.3.2.1; DSP Section 5.4.1.6; DSP Section 5.4.1.9, DSP Section 5.4.2.4; DSP Appendix XIII, DSP Appendix XIVA and DSP Appendix XIVB; and IRR 1-VECC-3);
- The past and planned productivity initiatives of EPI (as more fully explained in IRR 1-SEC-4);
- EPI's benchmarking performance (as more fully explained in Exhibit 1: Section 1.4.3, page 47 line 5 thru page 48 line 22); and IRR 1-SEC-3);
- EPI's past reliability and service quality performance as well as EPI's targets for performance in the test year (as more fully explained in Exhibit 1 Section 1.4.3, page 44, line 13 through page 46, line 16; and Exhibit 2: Section 2.6.10, and DSP Section 5.2.3.1.2, DSP Section 5.2.3.2.2, DSP Section 5.4.2.3.1);
- The total impact on distribution rates (as more fully detailed in Attachment I of this Settlement Proposal);
- The agreed to changes in OM&A spending (as described under Issue 1.2.1 of this Settlement Proposal);
- EPI's past and planned performance meeting government-mandated obligations (as more fully detailed in Exhibit 1: Section 1.4.1 and Section 1.4.3, pg 4, lines 13 through page 44 line 4; and
- EPI's targets and objectives (as more fully detailed in Exhibit 1: Section 1.4 and Exhibit 2: DSP Section 5.2.3).

1.2.1 OM&A Expenditures

For the purposes of the settlement of all issues in this proceeding, The Parties agree to reduce the OM&A expenditures in the 2016 Test Year by \$50,000.

The Parties agree that EPI's proposed OM&A expenses, as modified by this Settlement Proposal, support the planning choices and are adequately explained.

The evidence in this proceeding regarding OM&A expenditures provided a starting point for discussions which resulted in a Settlement Proposal which is agreeable to all Parties and provides a basis to support acceptance by the Board. In reaching this agreement, consideration was given to historical spending levels, inflation, efficiencies, customer growth and planned initiatives in response to customer needs and preferences, including power quality enhancements and improved customer service capabilities.

The Parties accept EPI's overall objectives, and have agreed that the revised OM&A budget will allow EPI to achieve those objectives in the Test Year.

For the purposes of the settlement of the issues in this proceeding, the Parties agree to the proposed OM&A expenses in this Settlement Proposal. The Intervenors have relied on EPI's view that it can safely

and reliably operate the distribution system based on the total OM&A budget established in this Settlement Proposal. EPI confirms that it will be able to achieve its business objectives as described in Exhibit 1 in the Test Year.

1.2.2 OPEBs (OM&A Component)

Recognizing the Board may address the method for the accounting of OPEBs in rates as part of a generic policy process, EPI agrees to adjust its 2016 Test Year capital expenditures to reflect the recovery of OPEBs on a cash basis, rather than an accrual basis, and the appropriate allocation of OPEBs between capital and OM&A subject to the approval of a new variance account, as described further in the settlement of Issue 4.2.3 below, to record the difference in rates between these two methodologies pending the Board's final determination on the generic policy issue.

Table 6 below presents the adjustments related to capital and OM&A recovery for the change to reflect OPEBs on a cash basis.

TABLE 0. OT EDS ACCOUNT CHANGE								
Description	Cash	Accrual	Adjustment

2 **REVENUE REQUIREMENT**

2.1 Are all elements of the Revenue Requirement reasonable, and have they been appropriately determined in accordance with OEB policies and practices?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the Revenue Requirement have been correctly determined in accordance with Board policies and practices. Specific adjustments to Revenue Requirement as a result of the IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 2.1.1 Cost of Capital
- Issue 2.1.2 Rate Base
- Issue 2.1.3 Working Capital
- Issue 2.1.4 Depreciation
- o Issue 2.1.5 Taxes
- Issue 2.1.6 Other Revenue

A summary of the adjusted Revenue Requirement is presented in Table 7 below.

An updated Revenue Requirement Work Form Model is included in Attachment C of this Settlement Proposal and has been submitted in Live Excel format.

	Description	Application	IR Responses	Variance	Settlement	Variance
Description		(A)	(B)	(C) = (B) - (A)	(D)	(E) = (D) - (B)
Cost of Capital	Regulated Return on Capital	\$5,606,789	\$5,480,095	-\$126,693	\$5,411,431	-\$68,665

2.1.1 Cost of Capital

For the purposes of settlement, EPI has agreed to adjust its long term debt rate resulting in a weighted average cost of capital rate of 6.26% for the 2016 Test Year. This rate reflects the cost of capital parameters for 2016 Cost of Service filers, as adjusted for a long term debt rate of 2.83% (instead of the long term debt rate parameter of 4.54%) on \$2M of long term debt to be issued July 1, 2016. Please see Table 8 below for details of the long term debt rate calculation. The change in the long term debt rate resulted in a reduction of the Regulated Return on Capital of \$17k as shown in the Revenue Requirement Work Form, Tab 10. Tracking, Item 14 included in Attachment C.

Description	Lender	Affiliated or Third-Party Debt?	Fixed or Variable- Rate?	Start Date	Term (years)	Principal (\$)	Rate (%)	Interest (\$)
Note Payable 1	Municipality of CK	Affiliated	Variable Rate	9/22/2000	N/A	\$23,523,326	4.54%	\$1,067,959
Note Payable 2	Entegrus Inc.	Affiliated	Variable Rate	6/30/2005	N/A	\$4,300,000	4.54%	\$195,220
Note Payable 3	Entegrus Inc.	Affiliated	Variable Rate	11/18/2009	N/A	\$1,000,000	4.54%	\$45,400
Note Payable 4	Entegrus Inc.	Affiliated	Variable Rate	12/16/2010	N/A	\$7,750,000	4.54%	\$351,850
Note Payable 5	Entegrus Inc.	Affiliated	Variable Rate	12/16/2010	N/A	\$500,000	4.54%	\$22,700
Note Payable 6	Entegrus Inc.	Affiliated	Variable Rate	12/31/2014	N/A	\$10,000,000	4.54%	\$454,000
Note Payable 7	Entegrus Inc.	Affiliated	Variable Rate	12/31/2015	N/A	\$450,000	4.54%	\$20,430
Note Payable 8	Entegrus Inc.	Affiliated	Variable Rate	7/1/2016	N/A	\$2,000,000	2.83%	\$28,300
Average/Total						\$48,523,326	4.50%	\$2,185,859

TABLE 8: LONG TERM DEBT RATE CALCULATION

TABLE 9: COST OF CAPITAL

Description	Capitaliza	tion Ratio	Cost Rate	Return
Description	%	\$	%	\$
Debt:				
Long Term Debt	56%	\$48,372,916	4.50%	\$2,179,083
Short Term Debt	4%	\$3,455,208	1.65%	\$57,011
Total Debt	60%	\$51,828,125		\$2,236,094
Equity:				
Common Equity	40%	\$34,552,083	9.19%	\$3,175,336
Preferred Shares	0%	\$0	0.00%	\$0
Total Equity	40%	\$34,552,083		\$3,175,336
Grand Total	100%	\$86,380,208	6.26%	\$5,411,431

Note: At the time of Application filing on August 28, 2015, EPI utilized the 2015 capital of parameters (long term debt 4.77%, short term debt 2.16% and equity 9.30%). Subsequently on November 12, 2015, EPI updated its evidence to reflect the 2016 cost of capital parameters (long term debt 4.54%, short term debt 1.65% and equity 9.19%). As described above, the long term debt rate was further adjusted to 4.50%.

The Parties accept that EPI's calculation of the proposed capital structure and the associated cost of capital have been correctly determined in accordance with Board policies and practices.

2.1.2 Rate Base

EPI has agreed to make the adjustments to Rate Base as described in the settlement of Issue 1.1 above. Also, adjustments have been captured in relation to the settlement of Issue 2.1.3 noted below.

Please see Table 10 below for a summary of the rate base calculation and adjustments. Subject to the adjustments to rate base described above and presented in Table 10 below, the Parties accept the evidence of EPI that the Test Year Rate Base is correct and based on Board policies and practices.

TABLE 10: RATE BASE

2.1.3 Working Capital

The Working Capital Allowance base has been updated to reflect the agreed upon updates to the Retail Transmission rates (Issue 3.4.1) and Low Voltage rates (Issue 3.4.2), as well as the changes to the Regulatory charges that came into effect January 1, 2016 (Issue 3.3.4).

The Parties acknowledge that EPI filed a lead/lag study as part of its Application, which, subsequent to update as part of the interrogatory process, reported a Working Capital Allowance of 8.21%. The Parties further acknowledge that there were a number of estimates and assumptions inherent to that study, as well as certain issues which would directionally lower the Working Capital Allowance, including the timing of HST remittances and interest payments (as identified in IRR 2-EnergyProbe-17 and IRR 2-EnergyProbe-15, respectively). Given these factors, the Parties have agreed, for the purposes of settlement, to utilize the Board's current default Working Capital Allowance Factor of 7.5%.

TABLE 11: WORKING CAPITAL ALLOWANCE CALCULATION

Description	Application	IR Responses	Variance	Settlement	Variance

2.1.5 Taxes

For the purposes of settlement of all the issues in this proceeding, and subject to the other adjustments arising in this Settlement Proposal, the Parties accept the evidence of EPI that its forecast PILs are appropriate and have been correctly determined in accordance with Board accounting policies and practices.

A summary of the adjusted PILs is presented in Table 13 below.

An updated PILs Model is included in Attachment D of this Settlement Proposal and has been submitted in Live Excel format.

3 LOAD FORECAST, COST ALLOCATION AND RATE DESIGN

3.1 Are the proposed load and customer forecast, loss factors, CDM adjustments and resulting billing determinants appropriate, and, to the extent applicable, are they an appropriate reflection of the energy and demand requirements of the applicant's customers?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that the load forecast, customer forecast, loss factors and CDM adjustments have been determined in accordance with Board policies and practices. Specific adjustments as a result of IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 3.1.1 Customer/Connections Forecast
- Issue 3.1.2 Load Forecast
- Issue 3.1.3 Loss Factors
- Issue 3.1.4 CDM Adjustments

The resulting billing determinants are presented in Table 15 below.

An updated copy of EPI's Load Forecast Model is included in Attachment E of this Settlement Proposal and has also been submitted in Live Excel format.

Rate Class	Cust/Conn	kWh	kW
Residential	36,333	280,420,230	-
General Service < 50 kW	3,856	101,141,767	-

Supporting Parties:

3.2 Is the proposed cost allocation methodology, allocations, and revenue-to-cost ratios appropriate?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the cost allocation methodology, allocation and revenue-to-cost ("RTC") ratios have been correctly determined in accordance with Board policies and practices. Specific adjustments to cost allocation methodology and RTC ratios as a result of the IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 3.2.1 Billing and Collecting Weighting Factors
- Issue 3.2.2 Meter Reading Cost Allocation
- Issue 3.2.3 Demand Profile

An update copy of the Cost Allocation Model is included in Attachment F of this Settlement Proposal and has also been submitted in Live Excel format.

The resulting RTC ratios are presented in Table 21 below.

Rate Class	Application	IR Responses	Variance	Settlement	Variance
Nate Class	(A)	(B)	(C) = (B) - (A)	(D)	(E) = (D) - (B)
Residential	98.90%	99.94%	1.04%	98.91%	-1.03%
General Service < 50 kW	105.09%	109.04%	3.95%	110.51%	1.47%
General Service > 50 kW	104.29%	99.08%	-5.21%	98.64%	-0.44%
Large Use - CK	85.00%	85.00%	0.00%	85.00%	0.00%
Large Use - SMP	30.88%	30.91%	0.03%	85.00%	54.09%
Unmetered Scattered Load	105.09%	109.04%	3.95%	110.51%	1.47%
Sentinel Lights	83.54%	86.29%	2.75%	86.25%	-0.03%
Street Lights	105.09%	109.04%	3.95%	110.51%	1.47%
Embedded Distributor	100.00%	100.00%	0.00%	100.00%	0.00%

TABLE 21: SUMMARY OF 2016 RTC RATIOS

In the Application dated August 28, 2015, EPI had proposed a three year phase in for the Large Use – SMP customer, which resulted in different RTC ratios for this customer for each of the years 2016 and 2017. As a result of this Settlement Proposal (and Issue 3.3.2), the RTC ratios proposed in Table 21 are consistent for 2016 through to the time of the next rebasing.

3.2.1 Billing and Collecting Weighting Factors

The Parties agree to an adjustment to the Embedded Distributor billing and collecting weighting factor. Otherwise, the Billing and Collecting weighting factors remain as proposed in the Application. Table 22 below presents the Billing and Collecting weighting factors:

Description	Application	IR Responses	Settlement Proposal
Weighting Factors:			
Residential	1.0	1.0	1.0
GS<50	1.0	1.0	1.0
GS>50	4.5	4.5	4.5
Large Use	5.5	5.5	5.5
Street Light	1.0	1.0	1.0
Sentinel Light	1.0	1.0	1.0
USL	1.0	1.0	1.0
Embedded Distributor	1.0	1.0	4.5

3.2.2 Meter Reading Cost Allocation

The Parties acknowledge the need for additional direct allocation of costs, including meter reading, data management and settlement costs. Accordingly, the Parties agree to the following adjusted direct cost allocations related to Account 5315:

Description	Application	IR Responses	Settlement Proposal
Account 5315 Total	\$1,396,861	\$1,396,861	\$1,396,861
Direct Allocation:			
IRR 4-EP-27, MyAccount		\$51,840	\$51,840
UtiliSmart, GS>50			\$23,712
UtiliSmart, Large Use			\$624
UtiliSmart, Embedded Dist			\$312
Total Direct Allocation		\$51,840	\$76,488
Amount for Indirect Allocation	\$1,396,861	\$1,345,021	\$1,320,373

3.2.3 Demand Profile

In calculating the demand profile, EPI updated its coincident and non-coincident peak calculations using 2014 actual data for allocation of the 2016 load forecast. The Parties agree to utilize the resulting demand profile, while acknowledging that the coincident peak and non-coincident peak calculations were not weather normalized.

3.3 Are the applicant's proposals for rate design appropriate?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the rate design have been correctly determined in accordance with Board policies and practices. Specific adjustments to the rate design as a result of the IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 3.3.1 Large Use CK Contracted Amount
- Issue 3.3.2 Large Use SMP Rate Mitigation
- Issue 3.3.3 Tariff Sheet Updates
- Issue 3.3.4 Residential Rate Design

The resulting distribution rates are presented in Table 23 below.

Rate Class	Fixed	Billing	Variable
Rate Class	Rate	Determinant	Rate
Residential	\$18.98	kWh	\$0.0077
General Service < 50 kW	\$30.00	kWh	\$0.0099
General Service > 50 kW	\$97.27	kW	\$3.2218
Large Use	\$1,484.36	kW	\$2.2668
Unmetered Scattered Load (Conn)	\$8.03	kWh	\$0.0015
Sentinel Lights (Conn)	\$7.30	kW	\$0.6543
Street Lights (Device)	\$1.11	kW	\$0.9331
Embedded Distributor	\$128.86	kW	\$0.0000

Supporting Parties:

All

3.3.1 Large Use Rate Design

In the Application, EPI had used a demand of 7.2MW for its Large Use – CK customer (with cogeneration) for the purposes of rate design, reflecting a contracted demand value for the customer, which employs co-generation. For the purposes of settlement, the Parties have agreed to increase the contracted demand value used for rate design for that customer from 7.2MW to 10.2MW, in order to reflect the historic gross load demand of the customer's facility in absence of co-generation. This increase has been reflected in Load Forecast updates presented in Issue 3.1.1 and Table 18.

Supporting Parties:

All

3.3.2 Large Use Rate Mitigation

In the Application, EPI noted that based on the historic rate design of the SMP rate zone, the SMP Large Use customer had experienced low distribution rates for an extended time. EPI further noted that based on the Application requirement to apply current Cost Allocation methodologies and RTC ratios, the customer would realize a substantial increase in annual distribution costs. In order to mitigate the impact to the customer, EPI proposed a three year transition period to move the RTC ratio of the customer up to the Board's lower boundary policy for the Large Use rate class of 85%.

With consideration to the overall rate impacts arising from the other adjustments from the IR Responses and Settlement Proposal, the Parties agree to align the SMP Large Use customer RTC ratio with the minimum Large Use RTC ratio of 85% effective May 1, 2016, rather than by May 1, 2018 as originally proposed as a rate mitigation strategy proposed in the Application. This is reflected in the values presented in Issue 3.2 and Table 21.

The updated overall bill impact analysis included herein as Attachment I, which reflects the above noted RTC ratio adjustment to 85% effective May 1, 2016, shows that overall bill impact for the SMP Large Use customer as a result of the distribution rate changes from this Application is a 0.52% increase. The Parties acknowledge that the absence of rate mitigation in this instance is consistent with normal rate making practice, whereby rate mitigation is not applied in cases where there is an overall rate increase of less than 10%.

3.3.3 Tariff Sheet Updates

The Parties agree to update the proposed tariff sheets to reflect the adjustments from the IR Responses and the Settlement Proposal. These include:

- Removal of "Credit Reference/Credit Check" from Specific Service Charges,
- Update description of Standby Charge line item,
- Update of the Wholesale Market Service Rate from \$0.0044/kWh to \$0.0036/kWh effective January 1, 2016; and
- Addition of the Ontario Electricity Support Program Charge of \$0.0011/kWh effective January 1, 2016.

A copy of the updated Tariff sheets have been included in Attachment A of this Settlement Proposal.

3.3.4 Residential Rate Design

Under the Board's new Policy entitled "A New Distribution Rate Design for Residential Electricity Customers (EB-2012-0140)", distributors are to structure Residential distribution rates so that all costs for distribution service are collected through a fixed monthly charge within four years (i.e. by 2019).

As described in the Application, and more fully detailed in Section 3.5 below, EPI currently maintains four rate zones. As such, there is currently a wide range of Residential fixed/variable proportions among

the four rate zones. The Parties acknowledge that the EPI Chatham-Kent rate zone represents a significant portion of EPI's Residential customers and that the Residential rates for the Chatham-Kent rate zone are already highly fixed.

Given the rate harmonization proposed in the Application and the above-noted factors, EPI proposed to start the migration to a fixed Residential monthly charge by first transitioning the Strathroy, Parkhill & Mt. Brydges rate zone, the Dutton rate zone and Newbury rate zone to the current Chatham-Kent fixed rate percentage in 2016. EPI further proposed that the remaining migration to fully fixed rate for Residential customers be completed over the remaining 3 years. This approach would result in EPI fully establishing fixed Residential distribution rates within 4 years.

The Parties agree to the proposed implementation of a fixed monthly distribution charge for Residential customers. The four year phase in approach is outlined in Table 24 below.

Rates Effective	Customers	FC	vc	Total	FC %	VC%	Proposed Rate
May 1, 2016	36,333	\$8,275,204	\$2,148,568	\$10,423,772	79.39%	20.61%	\$18.98
May 1, 2017	36,333	\$8,991,317	\$1,432,454	\$10,423,772	86.26%	13.74%	\$20.62
May 1, 2018	36,333	\$9,707,430	\$716,341	\$10,423,772	93.13%	6.87%	\$22.26
May 1, 2019	36,333	\$10,423,772	\$0	\$10,423,772	100.00%	0.00%	\$23.91

3.4 Are the proposed Retail Transmission Service Rates and Low Voltage service rates appropriate?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the Retail Transmission Service Rates and Low Voltage Service Rates have been correctly determined in accordance with Board policies and practices. Specific adjustments to the rates as a result of the IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 3.4.1 Retail Transmission Service Rates
- Issue 3.4.2 Low Voltage Service Rates

3.4.1 Retail Transmission Service Rates

Subsequent to updates related to this Settlement Proposal and updated for approved 2016 UTR and HONI transmission rates, the Parties have agreed to the RTSR rates presented in Table 25 below.

An updated copy of the Board RTSR Model has been included in Attachment G of this Settlement Proposal and has also been submitted in Live Excel format.

TABLE 25: RTSR NETWORK AND CONNECTION RATES

Rate Class	Unit	Proposed Network	Proposed Connection
Residential	kWh	\$0.0070	\$0.0053
General Service < 50 kW	kWh	\$0.0061	\$0.0047
General Service > 50 kW	kW	\$2.6640	\$1.9890
Large Use	kW	\$2.8267	\$2.1867
Unmetered Scattered Load	kWh	\$0.0061	\$0.0047
Sentinel Lights	kW	\$1.9570	\$1.4948
Street Lights	kW	\$1.9369	\$1.4600
Embedded Distributor	kW	\$2.6640	\$1.9890

Note: For customers with load displacement generation at 1MW or above, or 2 MW or above for renewable generation, installed after October 1998, the RTSR volumetric charges are billed at the gross demand level.

Supporting Parties:

3.5 Is the proposal for harmonizing rates and charges across Entegrus' rate zones appropriate?

COMPLETE SETTLEMENT

As noted in the Application, as a result of mergers and acquisitions, EPI currently maintains the following four rate zones:

- The Chatham-Kent Rate Zone, representing the territory of the former Chatham-Kent Hydro,
- The Strathroy, Mount Brydges and Parkhill Rate Zone, representing the territory of Strathroy, Mount Brydges & Parkhill of the former Middlesex Power Distribution Company;
- The Dutton Rate Zone, representing the territory of the former Dutton Hydro Inc.; and,
- The Newbury Rate Zone, representing the territory of the former Newbury Power Inc.

EPI further provided survey evidence showing that a strong majority of both residential (72%) and general service customers (69%) agreed with the concept of rate harmonization.

With reference to the above-noted factors, EPI proposed to harmonize the four above rate zones into a single tariff sheet effective May 1, 2016.

The Parties agree to the proposed harmonization of rates and charges as presented in the evidence by EPI.

Evidence References:

4 ACCOUNTING

4.1 Have all impacts of any changes in accounting standards, policies, estimates and adjustments been properly identified and recorded, and is the rate-making treatment of each of these impacts appropriate?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all impacts of changes to accounting standards, policies, estimates and adjustments have been properly identified and recorded in accordance with the Board's policies and properly reflected in rates. EPI has updated the calculation for Account 1576 to align with the settlement of Issue 2.1.1. The updated balance of Account 1576 for disposition is presented in Table 27 below.

TABLE 27: ACCOUNT 1576 - ACCOUNTING CHANGES UNDER CGAAP	(ORIGINAL TABLE 9-25)
---	-----------------------

Description	2013 Revised CGAAP Actual	2014 Revised CGAAP Actual	2015 MIFRS Forecast	
PP&E Values under former CGAAP				
Opening net PP&E	\$61,227,598	\$64,999,435	\$68,500,085	
Net Additions	\$9,152,268	\$9,197,637	\$8,720,709	
Net Depreciation	-\$5,380,431	-\$5,696,987	-\$5,872,584	
Closing PP&E	\$64,999,435	\$68,500,085	\$71,348,210	
PP&E Values under revised CGAAP

Net Additions	\$8,641,727	\$8,662,655	\$8,084,923	
Net Depreciation	-\$4,267,549	-\$3,484,350	-\$3,967,798	
Closing PP&E	\$65,601,777	\$70,780,081	\$74,897,206	
Difference in Closing net PP&E	-\$602,341	-\$2,279,996	-\$3,548,996	
WACC			6.26%	
Number of years for Disposition			2	
Return on Rate Base			-\$444,665	
Amount for Disposition			-\$3,993,662	

The Parties agree the amount in Account 1576 will be allocated to each rate class based on the 2016 Load Forecast kWh values. For all rate classes, except Residential, the rate will be determined on either a kWh or kW basis, as appropriate for each class. For the Residential rate class, the Parties agreed to a fixed monthly charge based on the 2016 Test Year Load Forecast number of customers. The amount in Account 1576 will be disposed of over two years. The allocation and applicable rate riders are presented in Table 28 below.

TABLE 28: ACCOUNT 1576 RATE RIDER CALCULATION

4.2 Are the applicant's proposals for deferral and variance accounts, including the balances in the existing accounts and their disposition and the continuation of existing accounts, appropriate?

COMPLETE SETTLEMENT

The Parties accept the evidence of EPI that all elements of the deferral and variance accounts, including the balances in the existing accounts and their disposition on a harmonized basis commencing May 1, 2016, as well as the continuation of existing accounts. Specific adjustments to the deferral and variance accounts as a result of the IR Responses and the Settlement Proposal are summarized immediately below and are described in detail in the specified sections further below:

- Issue 4.2.1 Stranded Meter Rate Rider Calculation
- Issue 4.2.2 LRAM & LRAMVA Disposition
- o Issue 4.2.3 LRAMVA Baseline
- Issue 4.2.4 OPEBs Deferral Account

Table 29 below summarizes the amounts for disposition and associated rate riders by rate class.

An updated copy of the DVA Continuity Model can be found in Attachment H of this Settlement Proposal and has also been submitted in Live Excel format.

Rate Class	Billing Determinant	Group One	Group One - Non-RPP	Group Two	lram/ Lramva	Acct 1576	Stranded Meter

4.2.4 OPEBs (Deferral Account)

Consistent with other recent Settlement Proposals approved by the Board, the Parties agree that EPI will establish a new deferral account for the purpose of recording the difference in revenue requirement each year, starting in the 2016 test year, between both the capitalized and OM&A components of OPEBs accounted for using a forecasted cash basis (as to be reflected in rates if this Settlement Proposal is accepted by the Board) and both capitalized and OM&A components of OPEBs accounted for using a forecasted cash basis. Carrying charges will not apply to this deferral account. If the Board determines that LDCs must include in rates OPEBs accounted for using a forecasted cash basis, EPI will seek to discontinue this account without seeking disposition of the amounts recorded in this account. If the Board determines that LDCs should recover OPEBs in rates using a forecasted accrual accounting methodology, the Parties agree that EPI may seek disposition of this account to dispose the amounts recorded in its next cost of service rate application. EPI will propose a disposition period over which the account should be disposed depending on the quantum in the account and the potential rate impacts at the time. A draft accounting order for this account is included in Attachment J to this Settlement Proposal.

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less and includes:

- 1) All services supplied to single-family dwelling units for domestic or household purposes,
- 2) All multi-unit residential establishments such as apartments of 6 or less units.
- 3) If a service supplies a combination of residential and commercial load and wiring does not permit separate metering, the classification of this customer will be determined individually by the distributor.

Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

ONTARIO ELECTRICITY SUPPORT PROGRAM RECIPIENTS

In addition to the charges specified on page 1 of this tariff of rates and charges, the following credits are to be applied to eligible residential customers.

APPLICATION

The application of the credits is in accordance with the Distribution System Code (Section 9) and subsection 79.2 of the Ontario Energy Board Act, 1998.

The application of these credits shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

In this class:

"Aboriginal person" includes a person who is a First Nations person, a Métis person or an Inuit person; "account-holder" means a consumer who has an account with a distributor that falls within a residential-rate classification as specified in a rate order made by the Ontario Energy Board under section 78 of the Act, and who lives at the service address to which the account relates for at least six months in a year;

"electricity-intensive medical device" means an oxygen concentrator, a mechanical ventilator, or such other device as may be specified by the Ontario Energy Board;

"household" means the account-holder and any other people living at the accountholder's service address for at least six months in a year, including people other than the account-holder's spouse, children or other relatives; "household income" means the combined annual after-tax income of all members of a household aged 16 or over;

MONTHLY RATES AND CHARGES

Class A

(a) account-holders with a household income of \$28,000 or less living in a household of one or two persons;
(b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of three persons;
(c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of five persons;
(d) account-holders with a household income of between \$48,001 and \$52,000 living in a household of seven or more persons;
but does not include account-holders in Class E.
OESP Credit

Class B

(a) account-holders with a household income of \$28,000 or less living in a household of three persons;
(b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of four persons;
(c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of six persons;
but does not include account-holders in Class F.

## **GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION**

This classification applies to a non-residential account taking electricity at 750 volts or less whose average monthly maximum gross demand over a period of 12 consecutive months is less than, or is forecast to be less than, 50 kW and includes multi-unit residential establishments such as apartment buildings supplied through one service (bulk-metered) with greater than 6 units. Further servicing details are available in the distributor's Conditions of Service.

#### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

### LARGE USE SERVICE CLASSIFICATION

This classification applies to an account whose average monthly maximum gross demand over a period of 12 consecutive months is equal to or greater than, or is forecast to be equal to or greater than, 5,000 kW. Further servicing details are available in the distributor's Conditions of Service.

#### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

EB-2015-0061

### UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/ documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Further servicing details are available in the distributor's Conditions of Service.

#### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

Total Loss Factor – Primary Metered Customer > 5,000 kW		1.0049

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2015-0061

### NOTES

1) The Billing Demand for Line and Transformation Connection Services and Low Voltage Services is defined as the Non-Coincident Peak demand (MW) in any hour of the month. The customer demand in any hour is the sum of (a) the loss-adjusted demand supplied from the distribution system plus (b) the demand that is supplied by embedded generation installed after October 1998, which have installed capacity of 2MW or more for renewable generation and 1 MW or higher for non-renewable generation. The term renewable generation refers to a facility that generates electricity from the following sources: wind, solar, Biomass, Biooil, Bio-gas, landfill gas, or water. The demand supplied by embedded generation will not be adjusted for losses.

## Work Form Model

## Revenue Requirement Workform (RRWF) for 2016 Filers

Version	6.	00
---------	----	----

Utility Name	Entegrus Powerlines Inc.	
Service Territory		
Assigned EB Number	EB-2015-0061	
Name and Title	Andrya Eagen, Senior Regulatory Specialist	
Phone Number	519-352-6300 Ext 243	
Email Address	regulatory@entegrus.com	

This Workbook Model is protected by copyright and is being made available to you solely for the purpose of filing your application. You may use and copy this model for that purpose, and provide a copy of this model to any person that is advising or assisting you in that regard. Except as indicate d above, any copying, reproduction, publication, sale, adaptation, translation, modification, reverse engineering or other use or dissemination of this model without the express wr itten consent of the Ontario Energy Board is prohibited. If you provide a copy of this model to a person that is advising or assisting you in preparing the application or reviewing your draft rate order, you must ensure that the person understands and agrees to the restrictions noted above.

While this model has been provided in Excel format and is required to be filed with the applications, the onus remains on the applicant to ensure the accuracy of the data and the results.

Notes

General Data inputs are required on Sheets 3. Data from Sheet 3 will automatically complete calculations on sheets 4 through 9 (Rate Base through Revenue Requirement). Sheets 4 through 9 do not require any inputs except for notes that the Applicant may wish to enter to support the results. Pale green cells are available on sheets 4 through 9 to enter both footnotes beside key cells and the related text for the notes at the bottom of each sheet.

(1)

All inputs are in dollars (\$) except where inputs are individually identified as percentages (%) Data in column E is for Application as originally filed. For updated revenue requirement as a result of interrogatory responses, technical or settlement conferences, etc., use colimn M and Adjustments in column I (2)

Net of addbacks and deductions to arrive at taxable income.

(2) (3) (4) (5) (6) Average of Gross Fixed Assets at beginning and end of the Test Year

Average of Accumulated Depreciation at the beginning and end of the Test Year. Enter as a negative amount.

Select option from drop-down list by clicking on cell M10. This column allows for the application update reflecting the end of discovery or Argument-in-Chief. Also, the outcome of any Settlement Process can be reflected.

Input total revenue offsets for deriving the base revenue requirement from the service revenue requirement

(7) (8) (9) 4.0% unless an Applicant has proposed or been approved for another amount.

The default Working Capital Allowance factor is 7.5% (of Cost of Power plus controllable expenses), per the letter issued by the Board on June 3, 2015. Alternatively, WCA factor based on lead-lag study or approved WCA factor for another distributor, with supporting rationale.

Ontario small business rate	4.50%	4.50%	4.50%	4.50%	4.50%

<u>Notes</u> 1. The Ontario Energy Board's proxy for taxable capital is rate base.

2. If taxable capital exceds \$15 million the maximum tax rates apply.

3. If taxable capital is below \$10 million the minimum tax rates apply.

4. Where taxable capital is between \$10 million and \$15 million, the tax rate will be calculated.

### 2016 RTSR Workform for Electricity Distributors

v 4.0

In the green shaded cells, enter billing detail for wholesale transmission for the same reporting period as the billing determinants on Sheet "4. RRR Data". For Hydro One Sub-transmission Rates, if you are charged a *combined* Line and Transformer connection rate, please ensure that both the line connection and transformer connection columns are completed.

#### v 4.0

### 2016 RTSR Workform for Electricity Distributors

The purpose of this sheet is to calculate the expected billing when current 2015 Uniform Transmission Rates are applied against historical 2014 transmission units.

# 2016 RTSR Workform for Electricity Distributors

The purpose of this sheet is to re-align the current RTS Network Rates to recover current wholesale network costs.

Rate Class	Rate Description	Unit	Current RTSR- Network	Loss Adjusted Billed kWh	Billed kW	Billed Amount	Billed Amount %	Current Wholesale Billing	Adjusted RTSR Network
Residential	RTSR - Network	kWh	0.0074	292,534,384	0	2,164,754	31.1%	2,098,295	0.0072
General Service Less Than 50 kW	RTSR - Network	kWh	0.0065	105,511,091	0	685,822	9.8%	664,767	0.0063
General Service 50 to 4,999 kW	RTSR - Network	kW	2.8272		1,294,778	3,660,597	52.5%	3,548,214	2.7404
Large Use	RTSR - Network	kW	2.9998		124,447	373,316	5.4%	361,855	2.9077
Unmetered Scattered Load	RTSR - Network	kWh	0.0065	1,343,720	0	8,734	0.1%	8,466	0.0063
Sentinel Lighting	RTSR - Network	kW	2.0769		1,110	2,305	0.0%	2,235	2.0131
Street Lighting	RTSR - Network	kW	2.0555		19,358	39,790	0.6%	38,569	1.9924
Embedded Distributor	RTSR - Network	kW	2.8272		11,231	31,752	0.5%	30,777	2.7404

The purpose of this table is to re-align the current RTS Connection Rates to recover current wholesale connection costs.

Rate Class	Rate Description	Unit	Current RTSR- Connection	Loss Adjusted Billed kWh	Billed kW	Billed Amount	Billed Amount %	Current Wholesale Billing	Adjusted RTSR- Connection
Residential	RTSR - Connection	kWh	0.0053	292,534,384	0	1,550,432	31.5%	1,559,743	0.0053
General Service Less Than 50 kW	RTSR - Connection	kWh	0.0047	105,511,091	0	495,902	10.1%	498,880	0.0047
General Service 50 to 4,999 kW	RTSR - Connection	kW	1.9724		1,294,778	2,553,821	51.8%	2,569,157	1.9842
Large Use	RTSR - Connection	kW	2.1684		124,447	269,851	5.5%	271,471	2.1814
Unmetered Scattered Load	RTSR - Connection	kWh	0.0047	1,343,720	0	6,315	0.1%	6,353	0.0047
Sentinel Lighting	RTSR - Connection	kW	1.4823		1,110	1,645	0.0%	1,655	1.4912
Street Lighting	RTSR - Connection	kW	1.4478		19,358	28,027	0.6%	28,195	1.4565
Embedded Distributor	RTSR - Connection	kW	1.9724		11,231	22,152	0.4%	22,285	1.9842

The purpose of this table is to update the re-aligned RTS Network Rates to recover future wholesale network costs.

Rate Class	Rate Description	Unit	Adjusted RTSR- Network	Loss Adjusted Billed kWh	Billed kW	Billed Amount	Billed Amount %	Current Wholesale Billing	Proposed RTSR- Network	
Residential	RTSR - Network	kWh	0.0072	292.534.384	0	2,098,295	31.1%	2,039,804	0.0070	
General Service Less Than 50 kW	RTSR - Network	kWh	0.0063	105,511,091	0	664,767	9.8%	646,236	0.0061

EB-2015-0061 Filed: February 3, 2016 Settlement Proposal

# ATTACHMENT J

# Draft Rate Order OPEBs Variance Account

EPI shall establish the following deferral account effective May 1, 2016.

Account 1508 Other Regulatory Assets, Subaccount – OPEB Forecast Cash versus Forecast Accrual Differential Deferral Account

EPI shall establish the OPEB Forecast Cash versus Forecast Accrual Differential Deferral Account for the purpose of recording the difference in revenue requirement each year between both the capitalized and OM&A components of OPEBs accounted for using a forecasted cash basis (as to be reflected in rates if this settlement is accepted by the Board) and the capitalized and OM&A components of OPEBs accounted for using a forecasted cash basis (as to be reflected for using a forecasted by the Board) and the capitalized and OM&A components of OPEBs accounted for using a forecasted.

If the Board determines that LDCs must include in rates OPEBs accounted for using a forecasted cash basis, EPI will seek to discontinue this account without seeking disposition of the amounts recorded in this account. If the Board determines that LDCs should recover OPEBs in rates using a forecasted accrual accounting methodology, EPI will seek disposition of this account to dispose of the amounts so recorded in its next cost of service rate application. In such case, EPI will propose a disposition period over which the account should be disposed depending on the quantum in the account and the potential rate impacts at the time.

Carrying charges will not apply to this account.

### Sample Journal Entry

## Sample Assumptions:

- OPEB costs (accrual basis) = \$ 170k
- OPEB costs (cash basis) = \$ 250k
- OPEB costs split between operating and capital on a 60/40 ratio.
- Assume capital items depreciated over 40 years and half year rule applies in year of acquisition.
- Assume OPEB costs incurred evenly throughout the fiscal period.
- Carrying charges do not apply to this deferral account.

### The sample accounting entries for the Deferral Account are provided below:

A) To record the shortfall of OPEBs accounted for using a forecasted accrual basis versus OPEBs accounted for using a forecasted cash basis.

DR	Capital costs (various accounts)	\$32k
DR	OM&A expenses (various accounts)	\$48k
CR	1508 OPEB Subaccount	(\$80k)

B) To depreciate the capital recorded re: the capital portion of OPEB costs:

DR	Depreciation	\$0.4k	
CR	Accumulated Depreciation		(\$0.4k)
