OEB STAFF INTERROGATORIES

March 16, 2016

Interrogatory #1

Ref: Application page 2 paragraphs 7, 8 and 9

Preamble:

OEB staff notes that the former Township of Elzevir & Grimsthorpe is included in Union Gas' application for a Franchise Agreement and Certificate of Public Convenience and Necessity with the Municipality of Tweed. The evidence states that the former Village of Tweed, the former Township of Hungerford and the former Township of Elzevir & Grimsthorpe were amalgamated in January 1, 1998. Union Gas has Franchise Agreements and Certificates for each of the former Village of Tweed and the former Township of Hungerford, but does not have a Franchise Agreement or a Certificate for the former Township of Elzevir & Grimsthorpe.

Questions:

- a) Please advise if Union Gas is currently providing natural gas service within the geographic boundaries of the former Township of Elzevir & Grimsthorpe. If so, when did Union Gas start to provide service and how many customers are currently being served?
- b) If Union Gas is providing gas service to the area covered by the former Township of Elzevir & Grimsthorpe, please provide the rationale for why Union Gas has not submitted an application for a Franchise Agreement and Certificate of Public Convenience and Necessity prior to the current application.
