

REF: NOACC Evidence page 5 of 6

Preamble: NOACC proposes a surcharge on the natural gas commodity as a means of funding expansion.

1. Under NOACC's proposal, how would direct purchase customers who pay for their commodity directly to their supplier be treated?

REF: NOACC Evidence, Appendices, Part 1, Tab 3a, pages 1-2

Preamble: In Tab 3a, an LNG Backgrounder asserts many positive attributes of LNG while quantifying several costs and benefits.

2. Please file the study that produces the specified values for costs and benefits.
3. If no study is available, please provide some information on the development of the backgrounder, including but not limited to:
 - a. The individual who quantified the specified values and their qualifications
 - b. The specific assumptions that went into the determination of these values (i.e., scope of project (s), distance from source of natural gas, etc.)
 - c. Additional information that substantiates the ability of the Board to rely on such figures as evidence.
