**RE: EB-2016-0118 - UNION GAS 2015 DEFERRALS – FRPO LATE INTERVENTION**

As requested by the Board, I am writing to provide explanation to our timing of intervention.

The notice of proceeding was circulated by Union Gas on May 5<sup>th</sup>. After returning from three days out of province utility work on May 4<sup>th</sup>, I was present in the Oral hearing for EB-2016-0004, the Natural Gas Community Expansion Proceeding on May 5<sup>th</sup>. With my focus on that proceeding and managing additional client responsibilities, I missed the notice calling for interventions in EB-2016-0118. To be clear, this omission and subsequent request dated May 19<sup>th</sup> were my responsibility and not the actions of FRPO. I apologize to the Board and Staff for the additional effort required as a result of my omission and respectfully request the Board's indulgence.

Respectfully Submitted,

Dwayne R. Quinn  
Principal  
DR QUINN & ASSOCIATES LTD.
