Dear Ms. Walli;

Re: Intervention Request – Hydro One Inc. – Leave to Purchase all Voting Securities of Great Lakes Power Transmission Inc. – EB-2016-0050

Enersource Hydro Mississauga Inc. (“Enersource”), Horizon Utilities Corporation (“Horizon Utilities”) and PowerStream Inc. (“PowerStream”) (collectively, the “Parties”) respectfully request intervenor status in the above-captioned proceeding.

The Parties are licensed electricity distributors and regularly participate in Ontario Energy Board (“OEB”) proceedings. The Parties intend to participate in the proceeding by reviewing the application and any evidence on the record or that is publicly available.

This is a late intervention request and, to that end, the Parties agree to accept the record as it stands.

The Parties are not eligible for, nor will they be seeking, an award of costs as provided in the OEB’s Cost Award Guidelines.

We ask that all correspondence in this matter be directed to the Parties, as follows:
