Dear Ms. Walli:

**Re: EB-2014-0105 – Ottawa River Power Corporation – Draft Rate Order
Comments of the Vulnerable Energy Consumers Coalition (VECC)**

VECC's comments on the draft rate order were sent by email to the Company and interested parties on Thursday June 9, 2016 and are now being filed with the Board for consideration in the approval process for the Draft Rate Order. Our comments consist of the following:

- 1) The distribution rates on the Tariff Sheets for Street Lights and USL do not match the values calculated in Appendix K – Rate Design
- 2) In the Cost Allocation model – Sheet I6.1 – Revenue – Row 29 has not been updated for the approved load forecast
- 3) In Appendix F – the calculations of the Deferral and Variance account rate riders do not all use the approved load forecast.

Yours truly,

Michael Janigan
