**Re: Staff Discussion Paper on a Cap and Trade Regulatory Framework for Natural Gas Utilities
EB-2015-0363**

Thank you for the opportunity to provide input on the Cap and Trade Regulatory Framework for Natural Gas Utilities.

Thames Valley District School Board supports a separate line item for the new cap and trade charge on the utility issued invoices. This will help to provide billing transparency.

Sincerely,

A handwritten signature in blue ink that reads "Nancy Hindmarsh".
