Ms. Kirsten Walli  
Board Secretary  
Ontario Energy Board  
2300 Yonge Street  
Suite 2700  
P.O. Box 2319  
Toronto ON M4P 1E4

Dear Ms. Walli:

**Re: EB-2016-0196 – Application for leave to construct amending the relief requested in EB-2013-0203**

On June 17, 2016 FWRN LP and NR Capital General Partnership filed an application for leave to construct which amends the relief requested in the application filed in EB-2013-0203 (the “**Application**”).

Further to the Board’s Decision and Order of June 2, 2016 and as set out in the Application at paragraph 70, the Applicants have inquired with the IESO and Hydro One to confirm that the System Impact Assessment and the Customer Impact Assessment will not change as a result of the transmission line length being shorter by approximately 500 meters total.

Further to paragraph 72 of the Application, please find enclosed an email from Hydro One confirming that the Customer Impact Assessment will not change as a result of the shorter transmission line length.

Please contact the undersigned if you have any questions in regards to the foregoing.

Yours truly,

McCarthy Tétrault LLP

**Subject:** RE: NRWF - T-Line length modification - Niagara Region Wind Farm

Good Morning Adam,

I have confirmed with our planning department that there will be no material impact on the CIA study based on a reduction in the length of the T-line between 400-700 Meters.

Thanks,

**J. Brent Currie**

Brent;

See response from IESO regarding line length change. Thoughts on when we'll be getting something similar from HONI?

Hi Martin and Adam, there is no implication or change to the system impact assessment (SIA).

Please see the confirmation from Fang Gao of our Connection Assessments.

Please let me know if you have further concerns, thanks.

Hello Ed,

The change will not affect the SIA.

Thanks,

Fang

**Subject:** FW: NRWF - T-Line length modification - Niagara Region Wind Farm

Hi Fang, there are some changes to the T-Line Length based on the email below.

Please advise if there are changes needed or if this change will affect their SIA.

Thanks,

Ed

**Subject:** NRWF - T-Line length modification

Eduardo,

We will have a reduction of between 400-700 Meters of the T-Line length.

Do you see the SIA and CIA remain valid with this minor change?

Regards,

**Martin St-Pierre, ing., P.Eng.**
